

**1,998 Written questions**

1. The post op abdominal aneurysm repair client is most likely to have which type of tube?

---

2. After using nose drops, the client should remain \_\_\_\_ for \_\_\_\_ minutes.

---

3. What will you see when you observe the neck of a client with CD of pregnancy?

---

4. The hair loss due to chemotherapy is usually temporary? (T/F)

---

5. What is the purpose of a Logan Bow?

---

6. Which blood gas disorder is most common in pneumonia?

---

7. Foods lose some or all of their fiber when they are \_\_\_\_\_. \_\_\_\_\_, \_\_\_\_\_ or \_\_\_\_\_.

---

8. Syphilis is sexually transmitted. (T/F)

---

9. In what age range is spinal cord injury most common?

---

10. How long after strep infection does AGN develop?

---

11. What movements are to be avoided after cataract surgery?

---

12. How much sleep should the client get the night before an EEG?

---

13. Complete recovery from the paralysis of Bell's Palsy should occur in \_\_\_\_ to \_\_\_\_ months.

---

**14.** What is the famous triad of symptoms in Meniere's?

---

**15.** Sterile gloved hands must always be kept above the waist. (T/F)

---

**16.** What are the 2 common subjective signs of otitis media?

---

**17.** Iron with nausea

---

**18.** Under-secretion of adrenal cortex

---

**19.** How many nitro tabs can you take before you call the doctor?

---

**20.** What positions are to be avoided after cataract surgery?

---

**21.** What type of diet should the patient with MG be on?

---

**22.** Is cholesterol a triglyceride?

---

**23.** How long does the oliguric phase last?

---

**24.** Clients receiving chemotherapy must be NPO. (T/F)

---

**25.** How often are vital sign measurements taken in AGN?

---

**26.** After receiving ear drops the client should remain in \_\_\_\_\_ position for \_\_\_\_\_ minutes.

---

**27.** Name one carbonic anhydrase inhibitor

---

**28.** How long does the woman have to be off oral contraceptives before hysterectomy?

---

**29.** What is another name for Vitamin B-12?

---

**30.** What conditions does ECT treat?

---

**31.** What is the common finding with pediculosis pubis?

---

**32.** What are the 3 objective symptoms/signs of thrombocytopenia? Hint: P.E.E.

---

**33.** "If I had to do it over again, I'd live my life just about the same," is an example of \_\_\_\_\_

---

**34.** When pulmonary edema is severe what does the sputum look like?

---

**35.** What kind of treatment is done for severe scoliosis?

---

**36.** What are three types of transfusion reactions that can occur?

---

**37.** -lysis

---

**38.** Hyperthyroid (High metabolism)

---

**39.** Before PD it is important the client be...

---

**40.** The goal is for the infant to breast feed for \_\_\_\_\_ minutes per side.

---

**41.** Are migraine headaches usually unilateral or bilateral?

---

**42.** How long does the diuretic phase last?

---

**43.** Masks deliver higher or lower concentrations of O<sub>2</sub> than nasal cannulae?

---

**44.** What group of people get cast syndrome?

---

**45.** The most common symptom of osteoarthritis is \_\_\_\_\_.

---

**46.** When halo traction is being used to immobilize the spinal cord the client is allowed to \_\_\_\_\_.

---

**47.** -pathy

---

**48.** Whole grains and grain products are (high/low) in fiber.

---

**49.** Define cataract

---

**50.** To prevent irritation of the skin near the edges of a cast the edges should be \_\_\_\_\_.

---

**51.** Early stage hepatitis often looks like the \_\_\_\_\_.

---

**52.** What is the first test for HIV antibodies?

---

**53.** What does heterozygous mean?

---

**54.** Clients with celiac's disease don't absorb fats; therefore they don't absorb \_\_\_\_\_.

---

**55.** What is intermittent claudication?

---

**56.** AIDS is transmissible through what four routes?

---

**57.** Hypertension is an \_\_\_\_\_ or sustained elevation in the (systolic/diastolic) \_\_\_\_\_.

---

**58.** The major source of energy for the body is

---

**59.** How many measurements must be made before you can say a person has hypertension?

---

**60.** (Obese/very thin) women are most likely to become diabetic during pregnancy.

---

**61.** Do clients in hypovolemic shock have to have a Foley inserted?

---

**62.** What is anuria?

---

**63.** From where should the nurse provide care to the client with cesium implant?

---

**64.** Of protein, fat, and carbohydrates, which ones (percent-wise) increase in the diet of gestational diabetics?

---

**65.** In what type of container should breast milk be stored?

---

**66.** What is the difference between structural and functional scoliosis?

---

**67.** What is a common complication of a client in a body cast (like a Risser cast)?

---

**68.** Besides a thrombus what else can cause an embolus in the lung?

---

**69.** Which of these symptoms are NOT seen in hemophilia? Prolonged bleeding, petechiae, ecchymosis or hematoma?

---

**70.** What are the top three nursing interventions in pemphigus?

---

**71.** What is the big danger from torsion?

---

**72.** In Cushings syndrome, the trunk is \_\_\_\_\_ and the extremities are \_\_\_\_\_.

---

**73.** After treatment how long do you have to inspect for lice?

---

**74.** The school-aged child perceives the cause of illness to be external or internal?

---

**75.** When the client asks about the use of glasses or contacts after cataract surgery what would you say?

---

**76.** What are the three adult stages of development called

---

**77.** 1 kg

---

**78.** What type of rigidity is typical of Parkinson's?

---

**79.** What is Kyphosis?

---

**80.** How far should the HOB be up after CVA?

---

**81.** Without leukopenia the AIDS patient will be on \_\_\_\_\_ precautions.

---

**82.** What does blood-typing mean?

---

**83.** Rape is a crime of passion. (T/F)

---

**84.** What is the most common symptom of lice?

---

**85.** For breast engorgement, the non-breastfeeding mother should be told to express breast milk. (T/F)

---

**86.** What type of cast is used post-operatively?

---

**87.** What age group should be routinely screened for scoliosis?

---

**88.** What surgery CAN be done for MG?

---

**89.** Young adults are (low/high) risk for suicide.

---

**90.** What test confirms the diagnoses of gestational diabetes?

---

**91.** How much suction should be used for an adult?

---

**92.** HIV is present in all body fluids?

---

**93.** When you plan to use gloves for a procedure you do not need to wash hands before it. (T/F)

---

**94.** Name two miotics

---

**95.** What are comedones?

---

**96.** The symptoms of sensory overload and sensory deprivation are...

---

**97.** If a transfusion reaction is suspected, what two samples are collected and sent to the lab?

---

**98.** Why are doctors cautious in using antiemetics to treat hyperemesis gravidarum?

---

**99.** 3 to 6 years

---

**100.** The preferred length of needle for SQ injection is\_\_\_\_\_.

---

101. What is recommended for the prevention of epiglottitis?

---

102. An aneurysm can result from an \_\_\_\_\_ and from \_\_\_\_\_.

---

103. Name the 3 physical symptoms of Rape Trauma Syndrome.

---

104. How do you tell which side of the person's brain is dominant?

---

105. -penia

---

106. Are fats a normal constituent of feces?

---

107. Children with epiglottitis often need a tracheotomy. What behavior would indicate the need for a tracheotomy?

---

108. Children should receive no more than \_\_\_\_ cc per site by IM injection.

---

109. Comfort range or relative humidity is...

---

110. -ology

---

111. When a woman is hospitalized for severe pre-eclampsia the nurse should test...

---

112. When is insulin used in the treatment of gestational diabetes?

---

113. What acid-base disorder is seen in the shock phase of a burn?

---

114. What is the appearance of the stool in a client with CF? **remember the 4 Fs**

---

115. By what route do you take nitro?

---

**116.** The unconscious client should assume what position during suctioning?

---

**117.** Hepatitis B

---

**118.** Name the 5 criteria that are recorded on an apgar scale

---

**119.** What are the #1 and #2 causes of sickle cell crisis?

---

**120.** The first thing a nurse should do when a client objects to side rails is...

---

**121.** What should you tell a breast feeding mother about her milk supply when she goes home from the hospital?

---

**122.** These infants are prone to develop \_\_\_\_ and failure to \_\_\_\_.

---

**123.** Can 3 cc of fluid be administered per IM into the deltoid of an adult?

---

**124.** A dry cast is gray or white?

---

**125.** In addition to the facial paralysis, the sense of \_\_\_\_ is also affected.

---

**126.** If mastitis is caused by an organism, what causes breast engorgement?

---

**127.** When do you need a gown with AIDS?

---

**128.** The post-operative patient should void by \_\_\_\_ hours post-operatively or you must call the MD.

---

**129.** What gauge catheter would you use to start an IV in hypovolemic shock?

---

**130.** How long does a lady have to wait before driving after a hysterectomy?

---

**131.** What drug is most commonly used in polycythemia vera?

---

**132.** Gestational diabetics tend to get \_\_\_\_\_ infections.

---

**133.** How is the flow of eye irrigational fluid directed?

---

**134.** What affect do oral contraceptives have on ovarian cysts?

---

**135.** What does torsion of an ovarian cyst mean?

---

**136.** Kernig's sign is positive when there is pain in the \_\_\_\_ when attempting to straighten the leg with \_\_\_\_ flexed.

---

**137.** How often should the neurovascular status of the extremities of a client in a Risser cast be measured? Fresh post-operatively?

---

**138.** What flow rates of O<sub>2</sub> are appropriate for the client with emphysema?

---

**139.** What is a major nursing diagnosis post-mastoidectomy?

---

**140.** The first trimester goes from week \_\_\_ to week \_\_\_.

---

**141.** What occurs during the follicular phase of the ovarian cycle?

---

**142.** The preferred length of needle to administer an IM injection is...

---

**143.** Give three appropriate indications for bladder catheterization?

---

**144.** What is the #1 complication of cleft lip/palate?

---

**145.** Should a female staff member be present when the rape victim is being examined?

---

**146.** What should the nurse do with the IV line if transfusion reaction is suspected?

---

**147.** How much suction should be used for an infant?

---

**148.** What is the lesion like in primary syphilis?

---

**149.** The preferred gauge of needle for injection for SQ injection \_\_\_\_\_.

---

**150.** What is the age range of concrete operational thinking?

---

**151.** A major disadvantage of PCA pump is that the client can take too much medication. (T/F)

---

**152.** Patient's with Parkinson's have \_\_\_\_\_ speech.

---

**153.** What drug is used to fight epiglottitis?

---

**154.** Proteins provide \_\_\_\_\_ Kcalories per 1 gram.

---

**155.** Uncleanliness is a cause of acne?

---

**156.** What two lab tests monitor coumadin therapy?

---

**157.** When putting on the second of a set of sterile gloves, you should grasp the cuff. (T/F)

---

**158.** What is important about the level of the urinary drainage bag?

---

**159.** When do you need a mask with AIDS?

---

**160.** What does a type and cross match indicate?

---

**161.** Will the client with a MI be nauseated?...diaphoretic?

---

**162.** If the client absorbs too much of the dialysate the client will experience...

---

**163.** What three medications are used in osteoarthritis?

---

**164.** What solution is best to use if you intend to remove a client's contact lenses?

---

**165.** Which two nutrients is breast milk lower in?

---

**166.** When should a diabetic be delivered?

---

**167.** Water accounts for \_\_\_\_\_ to \_\_\_\_\_% of an infant's total weight?

---

**168.** What type of diet is used in BPH?

---

**169.** Does a client have to be NPO before an EEG?

---

**170.** Can a client on PD: Sit in a chair? Eat? Urinate? Defacate?

---

**171.** What are 3 ways to gain access to the circulation in hemodialysis?

---

**172.** Subcutaneous injection must be given at 45 degrees. (T/F)

---

**173.** What is Hegar's sign?

---

**174.** para-

---

**175.** What is the most common problem due to catheterization?

---

**176.** Should pregnant staff care for a client with a cesium implant?

---

**177.** Normal length of pregnancy is \_\_\_\_ to \_\_\_\_ days.

---

**178.** What is the icteric stage?

---

**179.** The basis for a therapeutic nurse/patient relationship begins with the \_\_\_\_, self\_\_\_\_ and \_\_\_\_ \_\_\_\_.

---

**180.** PROM always occurs in a gush of fluid. (T/F)

---

**181.** Are enemas required before cystoscopy?

---

**182.** Encourage fantasy

---

**183.** Repetitive actions designed to reduce anxiety are called\_\_\_\_.

---

**184.** What is the big danger to staff when caring for a client with cesium implant?

---

**185.** In the recovery room the neck should be ...

---

**186.** Give 3 stages of acute renal failure.

---

**187.** How often should the client with acne wash his face each day?

---

**188.** Which sex has a higher incidence of otosclerosis?

---

**189.** If a women on oral contraceptives misses a period, should she still take pills?

---

**190.** If pre-eclampsia is mild will the woman be hospitalized?

---

**191.** Birth to 18 months

---

**192.** If after a right BKA, the client c/o pain in his right tow, he is experiencing \_\_\_\_\_.

---

**193.** Should a CVA patient have all four side rails up at all times? Should they be restrained?

---

**194.** What safety measures should be followed with Meniere's?

---

**195.** Fruits are (high/low) in fiber.

---

**196.** What does blood cross matching mean?

---

**197.** Name the four most common toxic effects of digitalis.

---

**198.** Name 3 drugs given for acne?

---

**199.** What fluid order should the emphysema client have?

---

**200.** Give five causes of cataracts?

---

**201.** -genic

---

**202.** Amniotic fluid is (acidic/alkaline)

---

**203.** If you were told to start the IV on the woman admitted for Placenta Previa, what gauge needle would you use?

---

**204.** Name the three symptoms of PIH.

---

**205.** For a woman who doesn't have retracted nipples, is towel drying or air drying better?

---

**206.** Mastitis and breast engorgement are more likely to occur in (primipara/multipara).

---

**207.** For the client with calcium nephrolithiasis the diet should be \_\_\_\_\_ ash.

---

**208.** Can the client be removed from skeletal traction?

---

**209.** What causes thrombophlebitis after hysterectomy?

---

**210.** During the luteal phase of the ovarian cycle, which of the following hormones increase: estrogen, progesterone or LH?

---

**211.** Should you use a heat lamp or hair dryer or fan to help dry a cast?

---

**212.** What is the name of frozen factor VIII given to hemophiliacs?

---

**213.** Does stress make acne worse?

---

**214.** How often should the nurse check the flow rate of the O2?

---

**215.** Obesity increases risk of CVA (T/F)

---

**216.** What test confirms the ELISA?

---

**217.** What is the primary purpose of a 3 way continuous bladder irrigation (CBI) after TURP?

---

**218.** Can hypertension be cured?

---

**219.** Use of oral contraceptives increases the risk of CVA (T/F).

---

**220.** What is the #1 integumentary side effect of chemotherapy?

---

**221.** What is the characteristic lesion of pemphigus?

---

**222.** What solution should be used on the skin where the brace rubs?

---

**223.** When does lightening occur in pregnancy?

---

**224.** In the rule of nines, the front trunk gets\_\_\_\_\_, the posterior trunk gets\_\_\_\_\_, each leg gets \_\_\_\_\_ and the genitalia gets\_\_\_\_\_.

---

**225.** After meals, the nurse must always check \_\_\_\_\_ of the CVA client for \_\_\_\_\_.

---

**226.** Name foods that make acid urine

---

**227.** What are 2 common psychological reactions to hysterectomy?

---

**228.** What is lovenox?

---

**229.** Which week can mother first feel the fetus move?

---

**230.** "Time is too short to start another life, though I wish I could," is an example of \_\_\_\_\_.

---

**231.** A second-degree burn is dull or shiny?

---

**232.** The best client position during airway suctioning is \_\_\_\_\_.

---

**233.** Is it always bad for the nurse to self-disclose?

---

**234.** When putting on the second glove of a set of sterile gloves, you must not use the thumb of the first hand. (T/F)

---

**235.** What vital sign changes are most ominous after cystoscopy?

---

**236.** What does AKA mean?

---

**237.** What is the meaning of cervical effacement?

---

**238.** The school-aged hospitalized child is afraid of separation from \_\_\_\_\_.

---

**239.** Abruptio Placenta usually occurs in (prima/multi) gravida over the age of \_\_\_\_\_.

---

**240.** Define contusion.

---

**241.** Which extremities are affected by it?

---

**242.** When putting on the first glove of a set of sterile gloves, you should grasp the cuff. (T/F)

---

**243.** Strict aseptic techniques is required when administering a vaginal medication. (T/F)

---

**244.** Elastic stockings should be removed for the bath. (T/F)

---

**245.** What is done in an AV fistula?

---

**246.** Appendicitis occurs most in what age group?

---

**247.** What is the sensori-motor stage of intellectual development?

---

**248.** What is glycogen?

---

**249.** What is the #1 symptom of cast syndrome?

---

**250.** What will you hear when you auscultate the lungs of the client with CD of pregnancy?

---

**251.** If the AIDS patient has leukopenia they will be on \_\_\_\_\_.

---

**252.** Where does the organism that causes mastitis come from?

---

**253.** If J. Doe's blood pressure is 100/60, what is his pulse pressure?

---

**254.** What is the BIG danger with aneurysms of any type?

---

**255.** What measurement must the woman with pre-eclampsia make every day?

---

**256.** A dry cast is dull or resonant to percussion?

---

**257.** What instructions do you give to a client taking tetracycline?

---

**258.** Can nurses be held liable for an accident resulting from a client not being told how to use the call light?

---

**259.** iso-

---

**260.** What would you do if the client had an increasing temperature and was to get blood?

---

**261.** What major sense is affected most in MS (besides vision)?

---

**262.** Give three reasons for a blood transfusion

---

**263.** Surgical aseptic techniques render and keep articles free from all organisms. (T/F)

---

**264.** Can the patient with spinal cord injury at C7 level have respiratory arrest?

---

**265.** When working with a rape victim they should be treated with \_\_\_\_ and \_\_\_\_.

---

**266.** An individual is obese if they weigh \_\_\_\_% above the ideal weight.

---

**267.** If an ovum is fertilized during the luteal phase what hormone will be secreted?

---

**268.** The 2 most common surgeries used to treat spinal cord injury are \_\_ and \_\_\_\_.

---

**269.** Will the client with pyelonephritis have hematuria?

---

**270.** What action will facilitate the trimming of brittle toenails?

---

**271.** Where do the emboli that cause pulmonary embolus usually come from?

---

**272.** The best goal to evaluate the progress of the client with anorexia nervosa?

---

**273.** What other things are appropriate after a reaction?

---

**274.** Do people without cell damage have troponin in their blood?

---

**275.** Name two things for which stool specimens are tested.

---

**276.** A third degree burn is hard or soft?

---

**277.** During the first trimester the woman experiences decreased or increased vaginal secretions?

---

**278.** What behavior on the part of the client is the BEST indicator that they have accepted their stoma?

---

**279.** Diabetes with pregnancy is (more/less) common as the woman ages.

---

**280.** Vasodilation will \_\_\_\_\_ blood pressure.

---

**281.** What happens to the blood pressure in hypovolemic shock?

---

**282.** Osteoarthritis is a \_\_\_\_\_ disease of the \_\_\_\_\_.

---

**283.** The #1 problem with central lines \_\_\_\_\_

---

**284.** Is an informed consent necessary for ECT?

---

**285.** Before allowing the dialysate to flow into the peritoneal cavity it must be \_\_\_ to \_\_\_ temperature.

---

**286.** What will the client with otosclerosis complain of besides hearing loss?

---

**287.** How often should a stump be washed?

---

**288.** Syphilis first infects the \_\_\_\_\_.  

---

**289.** What is the initial diet order for clients with hyperemesis gravidarum?  

---

**290.** In Myasthenia Gravis (MG) there is a disturbance in transmission of impulses at the \_\_\_\_\_.  

---

**291.** What are the top 3 priorities in care of the client with sickle-cell crisis?

---

**292.** How would you tell if the woman with PROM had an infection?

---

**293.** Oversecretion of ACTH

---

**294.** What are the processes occurring in migraines?

---

**295.** Due to MI occurs within \_\_\_ of symptom onset in 50% of all patients.

---

**296.** Should a child in sickle-cell crisis wear tight clothes?

---

**297.** Family history of diabetes increases the risk fo heart disease. (T/F)

---

**298.** What are the signs of O<sub>2</sub> toxicity?

---

**299.** Which artery is most commonly used to measure blood pressure?

---

**300.** At what time of year does rheumatoid arthritis flare up?

---

**301.** What is the first phase in acute renal failure?

---

**302.** What are the instructions given to clients recovering from hyperemesis gravidarum in relation to mealtime?

---

**303.** You must never turn your back to a sterile field. (T/F)

---

**304.** What gauge needle is used with a blood transfusion?

---

**305.** When the spinal cord injury is between \_\_\_\_ and \_\_\_\_ there is permanent respiratory paralysis.

---

**306.** What happens when patients with pernicious anemia don't absorb Vitamin B-12?

---

**307.** What is the BIG danger with pyelonephritis?

---

**308.** What does lightening mean?

---

**309.** At what age is death most likely in sickle cell anemia?

---

**310.** Can the stroke victim be turned side-to-side?

---

**311.** The mother with mastitis should stop breast feeding. (T/F)

---

**312.** Illeostomy

---

**313.** Pillows are sterilized between uses. (T/F)

---

**314.** How long should it take for one unit of blood to infuse?

---

**315.** Usually labor starts within \_\_\_\_ hours of rupture membranes.

---

**316.** Identity vs Role confrontation

---

**317.** If the patient has meningitis, the CSF shows \_\_\_\_ pressure, \_\_\_\_ WBC, \_\_\_\_ protein, \_\_\_\_ glucose.

---

**318.** What type of traction is most commonly used for hip fractures in children?

---

**319.** Another name for medical asepsis is...

---

**320.** Children are at \_\_\_ risk for suicide.

---

**321.** Hearing aids make sounds more distinct and clear. (T/F)

---

**322.** Will a woman with active bleeding in Placenta Previa be given any systemic pain relief during labor?

---

**323.** What visual symptom will the patient with meningitis have?

---

**324.** Describe the pain of angina pectoris

---

**325.** Should CSF contain blood?

---

**326.** What is the age range of pre-operational thinking? Hint: Think of PRE-schoolers.

---

**327.** What causes angina pectoris?

---

**328.** When using silver nitrate, the dressings must be kept \_\_\_\_\_.

---

**329.** Vitamins and minerals provide energy for the body. (T/F)

---

**330.** What is the activity order for a woman with severe pre-eclampsia?

---

**331.** What is the antibiotic most commonly given to clients with acne?

---

**332.** The most common complication of deep vein thrombosis \_\_\_\_\_ \_\_\_\_\_.

---

**333.** What artery is widened in a thoracic aneurysm?

---

**334.** The man with BPH has hesitancy. What does this mean?

---

**335.** What urinary pH prevents UTI?

---

**336.** As soon as Placenta Previa is diagnosed, most pregnancies will be terminated via C-section if the fetus is mature. (T/F)

---

**337.** How does the client evaluate the activity of their pancreas?

---

**338.** What is mastoiditis?

---

**339.** What drug should NOT be given to the patient with chemotherapeutic thrombocytopenia?

---

**340.** What does the physician hope to achieve with NRTI's and PI's for HIV?

---

**341.** Dietary indiscretions and uncleanliness are causes of acne?

---

**342.** When a patient is in a Buck's traction they may turn to the \_\_\_\_\_ side.

---

**343.** What are the two most common subjective complaints of the woman who is decompensating during labor?

---

**344.** How many days after ovulation does menstruation begin?

---

**345.** Cigarette smoking increases the risk of heart disease. (T/F)

---

**346.** What does BPH stand for?

---

**347.** In general, the nurse should wear gloves when applying skin preparations such as lotions. (T/F)

---

**348.** What does an EEG measure?

---

**349.** What vitamin should patients on Levodopa avoid?

---

**350.** To remove tape always pull (toward/away) from the wound.

---

**351.** If the client complains of abdominal gas after a hysterectomy, the best intervention is.....

---

**352.** Colchicine

---

**353.** Young infants accept medication best when given with a \_\_\_\_\_.  

---

**354.** What time of day can be particularly dangerous for the Parkinson's patient?  

---

**355.** What is the most common sign of fallopian tube ectopic pregnancy?  

---

**356.** In what position should the client be during a spinal tap?  

---

**357.** How long should you stay with the patient after beginning a transfusion?  

---

**358.** Pregnancy requires a \_\_\_\_\_ increase in the cardiac output.  

---

**359.** What does bacteriocidal mean?  

---

**360.** Can you use cotton swabs to clean the eyes, nares or ears of an infant?  

---

**361.** The nutrient needed most for growth and repair of tissues is \_\_\_\_\_.  

---

**362.** When women get MG they are usually old or young?  

---

**363.** Acid Ash diet  

---

**364.** How long will the patient with meningitis be on these precautions?

---

**365.** What are the three principles to protect yourself from radiation hazard?

---

**366.** What is the typical of the lesions of pemphigus?

---

**367.** Name the two most common dietary prescriptions used to treat hypertension?

---

**368.** Respiratory Distress Syndrome is also known as ....

---

**369.** Which age groups are most likely to physically resist the nurse during procedures?

---

**370.** What cardiac enzymes indicate an MI?

---

**371.** What do you do, in order, for evisceration?

---

**372.** Hepatitis A,B,C and D are all (bacterial/viral) diseases.

---

**373.** In BPH the force of the urinary stream is (increased/decreased).

---

**374.** Name 4 exercises used to treat mild scoliosis.

---

**375.** Clients on PCA pumps use more medication than those receiving IM injections. (T/F)

---

**376.** inter-

---

**377.** With what solution & when should a breast feeding mother cleanse the areola?

---

**378.** Is it possible to have only one: cleft lip or cleft palate?

---

**379.** The comfort range of temperature is...

---

**380.** A dry cast is dull or shiny?

---

**381.** What is the #1 cause of infant illness when the mother has diabetes?

---

**382.** Smoking increases the risk of CVA. (T/F)

---

**383.** Which of the following are signs of transfusion reaction? Bradycardia, Fever, Hives, Wheezing, Increased Blood Pressure, Low Back Pain

---

**384.** How long must the woman with CD of pregnancy be on bed rest after delivery?

---

**385.** When the patient with spinal cord injury is in tongs or on a stryker frame or on a circoelectric bed they are on.....

---

**386.** Should you remove adhered clothing?

---

**387.** 1 L

---

**388.** What other test is used to confirm fetal lung maturity?

---

**389.** In the long term reorganization phase the woman has 4 common fears. Name them....

---

**390.** Why is morphine given to clients with pulmonary edema?

---

**391.** What two non-dietary lifestyle changes are used commonly to treat hypertension?

---

**392.** Due to increased destruction of RBC's seen in polycythemia vera what blood level will be increased?

---

**393.** What are mast trousers?

---

**394.** With which body part do you begin when bathing an infant?

---

**395.** What words will the client use to describe the pain of an MI?

---

**396.** 1 tbs

---

**397.** Can you use the same cotton ball/washcloth edge for both eyes?

---

**398.** The three meats lowest in cholesterol are \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_.

---

**399.** What is the major complication of endometriosis?

---

**400.** Do small ovarian cysts cause symptoms?

---

**401.** Clean technique (Define)

---

**402.** The diagnosis is made when there is a weight loss of \_\_\_\_\_% or more of body weight.

---

**403.** The 2nd stage of labor and delivery lasts \_\_\_\_\_ hours for a primagravida and \_\_\_\_\_ hours for a multigravida.

---

**404.** When is infant hypoglycemia most likely to occur during labor and delivery?

---

**405.** Should the nurse change the post-mastoidectomy dressing?

---

**406.** Can you microwave frozen breast milk in order to warm/thaw it?

---

**407.** What are three signs of polycythemia vera?

---

**408.** What will be used to feed the infant after cleft lip repair?

---

**409.** When will the client with an MI be allowed to engage in sexual intercourse after an MI?

---

**410.** What happens when blood is administered with Dextrose IVs?

---

**411.** If the client with CD of pregnancy experiences sudden heart failure what is the MOST common thing you will see?

---

**412.** How high should the dialysate bag be when its infused?

---

**413.** Increasing dietary fiber lowers the risk of \_\_\_\_\_ of the \_\_\_\_\_.

---

**414.** If not contraindicated, what action by the nursing before suctioning would most likely reduce hypoxia during suctioning?

---

**415.** What reflex is commonly routinely tested in the recovery room?

---

**416.** When must psychological care of the rape victim begin?

---

**417.** What solution is put onto the skin to protect it from the irritating effects of the tape?

---

**418.** Are enemas common before a hysterectomy?

---

**419.** When the spinal cord injury is at level of \_\_\_ to \_\_\_ the patient will be a quadriplegic.

---

**420.** Pneumonia is only caused by bacteria. (T/F)

---

**421.** Should you encourage fluids after cystoscopy?

---

**422.** Water is present in ALL body tissues. (T/F)

---

**423.** Immediately after ECT, how will the client normally act?

---

**424.** When is a febrile reaction likely to occur?

---

**425.** Which acid-base disorder is MOST commonly associated with hypovolemic shock?

---

**426.** Which trimester is nausea and vomiting most common?

---

**427.** What will the extremities of the client with a MI feel like?

---

**428.** The meats that are second highest in cholesterol are the \_\_\_\_\_

---

**429.** What are the first two signs of hypovolemic shock?

---

**430.** Hemophilia A is a deficiency of Factor # \_\_\_\_\_.

---

**431.** What is meant by "cardiac decompensation"?

---

**432.** What type of traction is most commonly used for hip fracture in adults?

---

**433.** What chemical is added to the bath water of a client with pemphigus?

---

**434.** DTIC- dome

---

**435.** Why isn't Vitamin B-12 absorbed in pernicious anemia?

---

**436.** Descending Colostomy

---

**437.** What shampoo is used for lice?

---

**438.** Toddlers may require physical restraint for painful procedures. (T/F)

---

**439.** Name 5 things included in seizure precautions.

---

**440.** Women have a (higher/lower) incidence of stroke than men?

---

**441.** Is it okay to use powder with TED hose?

---

**442.** Oral medications have a (shorter/longer) duration of action than IM medications.

---

**443.** What will the nurse auscultate over the lungs when pulmonary edema occurs?

---

**444.** Can scalp tourniquets prevent chemotherapy alopecia?

---

**445.** Is an EGD a fasting procedure?

---

**446.** What is a TIA?

---

**447.** What body position should be avoided after hysterectomy? Why?

---

**448.** What are the four classic suicide precautions?

---

**449.** What name is given to diabetes that is brought on by pregnancy?

---

**450.** Thorazine

---

**451.** Patient's with MS should have (increased/restricted) fluids.

---

**452.** What should the client avoid post-stapedectomy?

---

**453.** Strict sterile technique is required when administering a drug per rectum. (T/F)

---

**454.** Chronic \_\_\_\_\_ therapy imitates Cushings.

---

**455.** Tetracycline

---

**456.** Dantrium causes (constipation/diarrhea)

---

**457.** What follows the RUQ abd pain of appendicitis?

---

**458.** What will the facial appearance of a patient with MG look like?

---

**459.** In which trimester does the woman most feel backache?

---

**460.** Methotrexate

---

**461.** Does Meniere's occur more in men or women?

---

**462.** What is cast syndrome?

---

**463.** What is the primary dietary prescription for calcium nephrolithiasis?

---

**464.** Which oils are high in cholesterol?

---

**465.** What is phlebotomy?

---

**466.** The inheritance pattern of sickle-cell anemia is \_\_\_\_\_

---

**467.** Should a client sleep with the hearing aide in place?

---

**468.** In how many surgeries is cleft palate repaired?

---

**469.** List the most common gynecologic symptom of anorexia nervosa?

---

**470.** Name the two phases of Rape Trauma Syndrome.

---

**471.** -itis

---

**472.** MS can lead to impotence in males. (T/F)

---

**473.** Apresoline

---

**474.** When does pre-eclampsia usually begin in pregnancy (week)?

---

**475.** Pemphigus

---

**476.** Which sex does it affect the most often?

---

**477.** What is the routine for vital sign measurement with a transfusion?

---

**478.** Milk and milk products are (high/low) in fiber.

---

**479.** How often should the bedridden post-operative patient do leg exercises?

---

**480.** High growth hormone in a child (give another name)

---

**481.** In a double-barrel colostomy, from which stoma (barrel) will the stool come out?

---

**482.** A CVA is a \_\_\_\_\_ of the brain cells due to decreased \_\_\_\_\_ and \_\_\_\_\_.

---

**483.** In hemophilia, the PTT is (up/down), the coagulation or clotting time is (up/down) and the platelet count is (up/down).

---

**484.** What is the normal pulse pressure?

---

**485.** How often should the nares of a client with O<sub>2</sub> by nasal cannulae be assessed for skin breakdown?

---

**486.** Which hand should hold the suction catheter? Which should hold the connecting tube?

---

**487.** The diet of a patient with MS should be \_\_\_-ash.

---

**488.** What does evening or hour of sleep (HS) care consist of?

---

**489.** Milk is (high/low) in cholesterol.

---

**490.** How can AGN be prevented?

---

**491.** In what position should the child with Pyloric Stenosis be during feeding?

---

**492.** During shock phase of a burn is potassium increased or decreased? Why?

---

**493.** The meats that are highest in cholesterol are \_\_\_\_\_ meats.

---

**494.** O<sub>2</sub> is an explosive (T/F)

---

**495.** The client's skin will be \_\_\_, \_\_\_, and \_\_\_\_\_.  

---

**496.** What complication is common in CHF?  

---

**497.** What factor is present in the blood when the client has rheumatoid arthritis?  

---

**498.** What information does the measurement of skin fold thickness yield?  

---

**499.** Chronic abuse of alcohol increases risk of CVA. (T/F)  

---

**500.** You should call the MD after TURP when you see \_\_\_\_\_ thick \_\_\_\_\_, \_\_\_\_\_ clots, and \_\_\_\_\_ urine drainage on the dressing.  

---

**501.** Name one mydriatic  

---

**502.** How long does the fluid mobilization or diuretic phase of a burn last?  

---

**503.** Chancres disappear without treatment. (T/F)  

---

**504.** The most common medical-surgical treatment for ectopic pregnancy is \_\_\_\_\_.  

---

**505.** If the MD orders 2,800 cc of fluid in the first 24 hours after a burn, one-\_\_\_ of it must be infused in the first 8 hours.  

---

**506.** Should steroids be given with meals?  

---

**507.** What blood type is the universal recipient?  

---

**508.** What are the two main treatment methods in gestational diabetes?

---

**509.** What causes cast syndrome, specifically in a Risser cast?

---

**510.** Which pressure is most damaging, an increased (systolic/diastolic)?

---

**511.** High ventilatory pressures result in what chronic lung problem?

---

**512.** What age group usually gets MS?

---

**513.** What is the purpose of a wound drain?

---

**514.** Do you give anticholinesterases with or without food?

---

**515.** In the menstrual cycle, day 1 is the day on which...

---

**516.** Says "no"

---

**517.** What will you auscultate over the lungs of the neonate with Respiratory Distress Syndrome?

---

**518.** When during the day should TED hose be applied?

---

**519.** The client is (awake/under local anesthesia/under general anesthesia) during ECT?

---

**520.** What agents are best for catheter care?

---

**521.** The child with meningitis is most likely to be (lethargic/irritable) at first.

---

**522.** -sect

---

**523.** What is sordes?

---

**524.** For cervical osteoarthritis the client should wear...

---

**525.** How often should anti-embolism hose (TED) be removed?

---

**526.** When will the cleft lip be repaired?

---

**527.** Encourage creativity and collecting things

---

**528.** In what position should the client be when they irrigate their colostomy?

---

**529.** In order to get a score of 2 on muscle tone the infant must \_\_\_\_\_.

---

**530.** Should you use talcum powder with a post-operative cataract client?

---

**531.** In vaso-occlusive crisis the vessels become occluded with \_\_\_\_\_.

---

**532.** Water accounts for \_\_\_\_\_ to \_\_\_\_\_ % of an adult's total weight?

---

**533.** What typical pre-operative type of orders will be ordered before ECT?

---

**534.** Should the client drink after a spinal tap?

---

**535.** What is the dietary order for the woman with severe pre-eclampsia?

---

**536.** If the patient has right hemiplegia, he cannot move his \_\_\_\_ and \_\_\_\_ and the stroke was on the \_\_\_\_\_ side of the brain.

---

**537.** What part of the ear is involved in otitis media?

---

**538.** A third-degree burn is white or red?

---

**539.** An early sign of hepatitis A is \_\_\_\_\_.

---

**540.** A major mental/emotional nursing diagnosis seen in anorexia nervosa is \_\_\_\_\_.

---

**541.** Syrups and elixirs are of particular concern to diabetic clients because....

---

**542.** Being alkaline means have a (high/low) pH

---

**543.** The best way to decrease nosocomial infection is sterile technique. (T/F)

---

**544.** intra-

---

**545.** What is ecchymosis?

---

**546.** The #1 danger when using the dorsogluteal site for IM injection is\_\_\_\_\_.

---

**547.** Antiseptic (Define)

---

**548.** Coagulate (Define)

---

**549.** What is the causative organism of acne?

---

**550.** Leaving a wound open to air decease infection by eliminating what 3 environmental conditions?

---

**551.** Pneumonia is an \_\_\_ in the \_\_\_ of the \_\_\_.

---

**552.** You can administer up to \_\_\_ cc of a drug per site by IM injection in adults.

---

**553.** What is a hysterectomy?

---

**554.** Is it permissible to give lidocaine viscous ac (before meals) if the patient has chemotherapeutic stomatosis? (T/F)

---

**555.** What is the action of nitro?

---

**556.** A person should have a yearly work up exam for cancer detection over the age of \_\_\_\_\_.

---

**557.** What is the medical treatment for pernicious anemia?

---

**558.** Application of (warm H<sub>2</sub>O compress/ice packs) is the preferred treatment for breast engorgement.

---

**559.** What will prevent hip flexion contracture after AKA?

---

**560.** What are bullae?

---

**561.** Death from Respiratory Distress Syndrome most commonly occurs within \_\_\_ hours of birth.

---

**562.** e-; ex-

---

**563.** Do people have a loss of hearing with otosclerosis?

---

**564.** What is the most RELIABLE or VALID indication that a woman is in labor?

---

**565.** What is the reason for giving post MI patients ASA?

---

**566.** The change in the character of the sounds is known as the \_\_\_\_\_

---

**567.** The primary reason why an infant is draped during the bath is to provide privacy. (T/F)

---

**568.** What causes the itching seen in renal failure?

---

**569.** The patient who has NO definite plan is (low/high) risk for suicide.

---

**570.** A third-degree burn is wet or dry?

---

**571.** When you take the blood pressure of the client with hypertension you would measure \_\_\_\_ - \_\_\_\_ , with the client \_\_\_, \_\_\_ and \_\_\_.

---

**572.** Does anything exit the skin in an AV shunt?

---

**573.** Is O<sub>2</sub> given in pulmonary edema?

---

**574.** What are the four classic signs of pulmonary edema?

---

**575.** What are some classic and unique signs of pernicious anemia?

---

**576.** What are the top 2 nursing diagnoses for a client with CF?

---

**577.** What solution should be used to clean a hearing aid?

---

**578.** Is there anything that can be done for the client with a ruptured aneurysm before they get to the operating room?

---

**579.** How is the bleeding of Abruptio Placenta different from that in placenta previa?

---

**580.** How will you know the patient has entered the fluid mobilization or diuretic phase?

---

**581.** What are the two most common medical treatments for otitis media?

---

**582.** What serum protein rises soonest after myocardial cell injury?

---

**583.** What is the most dangerous toxicity of Kwell?

---

**584.** Disinfectant (Define)

---

**585.** How often should you measure the vital signs, vaginal bleeding, fetal heart rate during Abruptio Placenta>?

---

**586.** Will the client have hypo or hyper tension with AGN? Why?

---

**587.** During bleeding into the joints you should (mobilize/immobilize) the extremity.

---

**588.** In which position should a woman with CD in labor be?

---

**589.** Fats provide \_\_\_\_\_ Kcalories per 1 gram.

---

**590.** What is the MOST common side effect of endometriosis?

---

**591.** After surgery to remove an ovarian cyst the woman can return to normal activities between \_\_\_\_\_ to \_\_\_\_\_ weeks,

---

**592.** When cancer spreads to a distant site it is called?

---

**593.** What will the fingers look like?

---

**594.** In which two systems/organs are the most problems in CF?

---

**595.** Culture means....

---

**596.** As the prostate enlarges it compresses the \_\_\_\_\_ and causes urinary \_\_\_\_\_.  

---

**597.** Everyone with angina needs bypass surgery? t/f  

---

**598.** What is the most common dietary modification for the woman with CD who shows signs of decompensation?  

---

**599.** What four organs does hypertension affect the most?  

---

**600.** To get a 0 on color the infant is  

---

**601.** Where is the pyloric sphincter?  

---

**602.** In hypovolemic shock the level of consciousness (LOC) is (increased/decreased).  

---

**603.** Name the five signs/symptoms that pyelonephritis has that cystitis does not have?  

---

**604.** When a doctor takes three different blood pressure readings at different times, how far apart must the measurements be made?  

---

**605.** In the recovery room the head should be ....  

---

**606.** What does pre-icteric mean?  

---

**607.** What lab test assesses the risk of Respiratory Distress Syndrome?  

---

**608.** The cause of RDS is a lack of \_\_\_\_\_.

---

**609.** The client with meningitis can develop\_\_\_\_\_.

---

**610.** An infant is given a score of 0 for respiratory effort if \_\_\_\_\_.

---

**611.** Which of these classes of drugs causes contact dermatitis?

---

**612.** What exercises should the post prostectomy patient do upon discharge? Why?

---

**613.** Since pulmonary edema is caused by left ventricular failure what drug is given?

---

**614.** When the Absolute Neutrophil Count ANC is below\_\_\_\_\_ the person on chemotherapy will be placed on reverse isolation.

---

**615.** What is meant by orthopnea?

---

**616.** To score a maximum score fo 2 on color the child must be \_\_\_\_\_.

---

**617.** 1 gr

---

**618.** Once the patient is admitted for attempted suicide should you ever discuss the attempt with them?

---

**619.** What does right sided CHF mean?

---

**620.** Should pregnant nurses care for patient receiving sealed internal radiotherapy?

---

**621.** Is milk allowed on a gluten-free diet?

---

**622.** To test amniotic fluid the nurse should check the \_\_\_\_\_ of the fluid.

---

**623.** Industry vs Inferiority

---

**624.** The infant fears \_\_\_\_\_ most when hospitalized.

---

**625.** What class of drugs is used to conservatively treat endometriosis?

---

**626.** What is meant when the physician/nurse use the terms total (complete) or partial (incomplete) in reference to placenta previa?

---

**627.** How often should the nurse clear the tubing during suctioning?

---

**628.** Do you need to call the doctor for autonomic dysreflexia?

---

**629.** Name the two types of crises that a MG patient can have.

---

**630.** Would vasodilators or vasoconstrictors treat hypertension?

---

**631.** Which trimester do Braxton-Hicks contractions begin?

---

**632.** Should you cover a wet cast?

---

**633.** -pexy

---

**634.** To treat hemarthrosis you should \_\_\_\_\_ the extremity above the \_\_\_\_\_.

---

**635.** Can post-operative pain medications be given in the recovery room?

---

**636.** Which patients should be forbidden to smoke? Smoke alone?

---

**637.** Scoliosis in the lumbar spine is usually convex to the (left/right).

---

**638.** In what position should a child with pyloric stenosis be after a feeding?

---

**639.** What is polycythemia vera?

---

**640.** Is a signed informed consent required for cystoscopy?

---

**641.** What is the difference between whole blood and packed cells?

---

**642.** What is the most common positive effect of lightening?

---

**643.** Is surgery done immediately upon diagnosis of cataract?

---

**644.** Late syphilis attacks which 3 body organs?

---

**645.** Which has highest fiber? Grains, fruits, veggies, nuts.

---

**646.** If PROM occurs before viability, what is the typical management?

---

**647.** Sickle cell anemia is most commonly seen in  
(blacks/whites).

---

**648.** What are the symptoms of disequilibrium syndrome?

---

**649.** What genetic disorder can lead to pulmonary embolus?

---

**650.** Pathogen (Define)

---

**651.** The stools of a client with celiac's disease are \_\_\_\_, \_\_\_ and \_\_\_ - \_\_\_.

---

**652.** In general, cancer drugs have side effects in which three body systems?

---

**653.** The typical hospital client (should/should not) wear their dentures.

---

**654.** Is it okay to give B12 orally to a client with pernicious anemia?

---

**655.** What is conservation? In what stage does it develop?

---

**656.** The total apgar score can range from

---

**657.** The intradermal route is primarily used for \_\_\_\_\_.

---

**658.** What are the two common treatments of cataract?

---

**659.** The client with emphysema is (ruddy/pale/cyanotic).

---

**660.** What disease often follows labyrinthectomy?

---

**661.** Do all the children with otitis media need tubes in their ears?

---

**662.** What instructions are MOST important to give a client during an EEG?

---

**663.** How should the eye drops be given?

---

**664.** What is cleft palate?

---

**665.** How does pyelonephritis differ from cystitis in meaning?

---

**666.** Which defense mechanism is most closely associated with obsessive-compulsive disorder?

---

**667.** Pre-eclampsia makes the neuromuscular system more or less irritable?

---

**668.** Unless contraindicated the patient should be out of bed no later than \_\_\_\_ hours post-operatively.

---

**669.** Will the typical post-operative client have lung sounds? Bowel sounds? Increased temperature?

---

**670.** Ectopic pregnancy is implantation of a fertilized ovum \_\_\_\_\_ the \_\_\_\_\_.

---

**671.** What is the permanent EKG change seen post MI?

---

**672.** When should the breast feeding infant be burped?

---

**673.** -atresia

---

**674.** When pressure is auscultated the first sound heard is the \_\_\_\_\_ measurement.

---

**675.** Are anticholinesterases sympathetic or parasympathetic?

---

**676.** The infant with pyloric stenosis appears \_\_\_\_ even after vomiting.

---

**677.** If the patient had an AKA they should lie \_\_\_\_\_ several times per day.

---

**678.** Deep vein thrombosis is most common in what type of surgery?

---

**679.** What is melena?

---

**680.** What is the #1 symptom of an MI?

---

**681.** The cessation of sounds is known as the \_\_\_\_\_

---

**682.** How long does it usually take for the dialysate to drain out of the peritoneum?

---

**683.** When do you need goggles with AIDS?

---

**684.** How will the child with epiglottitis breathe?

---

**685.** Should the client wash his hair before an EEG?

---

**686.** Immediately after rape, a woman who is calm & composed is adjusting well. (T/F)

---

**687.** How soon after removal of an ovarian cyst can a woman resume sexual intercourse?

---

**688.** What procedure is done to relieve symptoms in polycythemia vera?

---

**689.** To prevent post-op swelling, the stump should be \_\_\_\_\_.

---

**690.** Silver nitrate cream \_\_\_\_\_ the \_\_\_\_\_.

---

**691.** What cranial nerve is affected in Bell's Palsy?

---

**692.** Define laceration.

---

**693.** No nurse should attend the client with a cesium implant more than \_\_\_ per day.

---

**694.** What unique urine test is done to diagnose pernicious anemia?

---

**695.** Of first, second and third degree burns which has less pain? Why?

---

**696.** People who are (hetero/homo)zygous have sickle cell disease.

---

**697.** Allopurinol

---

**698.** Premature rupture of membranes (PROM) is a \_\_\_\_\_ break in the amniotic sac \_\_\_\_\_ the \_\_\_\_\_ of contractions.

---

**699.** The woman must avoid sexual intercourse if PROM has occurred. (T/F)

---

**700.** Hypertension is more common in blacks or whites?

---

**701.** -emia

---

**702.** What type of diet is this woman with a cesium implant on?

---

**703.** What activity order will the client with sickle cell CRISIS have?

---

**704.** What advice is best for women with endometriosis who want to have children?

---

**705.** How is the catheter taped in a female client?

---

**706.** Peritoneal Dialysis (PD)

---

**707.** Are nurses permitted to give perineal care to clients of the opposite sex?

---

**708.** The inheritance patterns for hemophilia is:

---

**709.** Which 2 classes of drugs are given in combination for HIV sero-positivity?

---

**710.** Which type of medications are given by Z-track injection?

---

**711.** What vision problem do women with pre-eclampsia have?

---

**712.** The AIDS virus invades helper \_\_\_\_\_.

---

**713.** Fluid moves from the\_\_\_\_\_ to the \_\_\_\_ in the SHOCK phase.

---

**714.** Cysts on the ovaries are usually malignant. (T/F)

---

**715.** Children with cleft lip and cleft palate have long-term problems \_\_\_ \_\_\_ and \_\_\_.

---

**716.** What will the client be wearing after cataract surgery?

---

**717.** When the client is taking diuretics, what mineral is the CHF client most likely to lose?

---

**718.** Liquid drugs should be poured out of the side (opposite of/the same as) the label.

---

**719.** The most common site for ectopic pregnancy is in the \_\_\_\_\_ \_\_\_\_\_.

---

**720.** Define evisceration

---

**721.** What is found over the body of the client with anorexia nervosa?

---

**722.** A first degree burn is pale or red?

---

**723.** Can AIDS patients leave the floor?

---

**724.** If a surgeon delays doing a C-section for Placenta Previa it is due to: (reason for delay).

---

**725.** Upon what do you support a cast while it dries?

---

**726.** When the patient is receiving radioactive iodine what precautions is/are most important?

---

**727.** Is glycogen eaten in foods?

---

**728.** Bed side rails should be up for the following individuals...

---

**729.** What are the 2 common objective signs of otitis media?

---

**730.** Is the patient with obsessive-compulsive disorder neurotic or psychotic?

---

**731.** What neurologic test do they do for this anemia?

---

**732.** Are migraines more or less common in men?

---

**733.** What is automatic dyslexia or hyperreflexia?

---

**734.** Sutures in general are removed by the \_\_\_ day.

---

**735.** Epiglottitis most commonly occurs in children from age \_\_\_\_ to \_\_\_\_.

---

**736.** Surfactant prevents the \_\_\_\_ of the alveoli.

---

**737.** What type of gait is seen in Parkinson's?

---

**738.** Pulmonary edema is a common complication of \_\_\_\_ disorders.

---

**739.** Enuresis

---

**740.** After advancing a Penrose drain you (should/should not) cut off the excess drain?

---

**741.** Hormones of pregnancy work against insulin. (T/F)

---

**742.** In order to score a 0 on HR the infant must have a rate of \_\_\_\_\_.

---

**743.** What type of movement should be used for cleansing eyes?

---

**744.** An emulsion is a mixture of \_\_\_\_ and \_\_\_\_.

---

**745.** Of milled bread, enriched bread, fortified bread and whole grain bread; which is highest in fiber?

---

**746.** Low growth hormone (give another name)

---

**747.** Should the suction be continuous or intermittent?

---

**748.** What are the three most common signs of ovarian cyst rupture?

---

**749.** PI's (Protease inhibitors)

---

**750.** What class of drugs is used to treat MG?

---

**751.** Levodopa should be given with or without food?

---

**752.** Which two groups of these drugs cause photophobia?

---

**753.** Name the surgery performed for an ectopic pregnancy.

---

**754.** Males are more likely to get an MI than females. (T/F)

---

**755.** What is the most common retinoid given to people with acne?

---

**756.** What are the top 2 side effects of nitro?

---

**757.** What does gluten do to the intestines of the client with celiac's disease?

---

**758.** Define azotemia?

---

**759.** What type of diet will people with polycythemia vera be on?

---

**760.** Stool Softeners

---

**761.** What part of the body is most affected by Raynaud's?

---

**762.** Lactose is a sugar found in ?

---

**763.** People with sickle cell TRAIT only carry the disease, they DO NOT have symptoms. (T/F)

---

**764.** An elderly client is a (high/low) risk for accidental poisoning? What about a school age child?

---

**765.** 18 to 25 years

---

**766.** Is having the client verbally identify himself considered adequate safety?

---

**767.** Who is at higher risk for suicide, a man or a woman?

---

**768.** The first sign of CVA is usually a \_\_\_\_\_.

---

**769.** What L/S ratio indicated fetal lung maturity?

---

**770.** Should you ever make an obsessive-compulsive person stop their compulsive behavior?

---

**771.** The cervix is fully dilated when it is \_\_\_\_ cm.

---

**772.** Can the client turn side-to-side after a spinal tap?

---

**773.** What two drugs are commonly given post-stapedectomy?

---

**774.** What is corrective surgery for otosclerosis called?

---

**775.** The symptoms of pyloric stenosis mostly commonly appear at age \_\_\_\_ to \_\_\_\_.

---

**776.** What lab findings are present in AIDS?

---

**777.** How do you prevent flexion contracture of the knee after BKA?

---

**778.** When pre-eclampsia gets worse the deep tendon reflexes will be (hyper/hypo) reflexia.

---

**779.** How long can AV shunt be used?

---

**780.** What is the best way to screen men for BPH?

---

**781.** What is the most dangerous side effect/complication of fallopian ectopic pregnancy?

---

**782.** Hemophilia is a \_\_\_\_\_ disorder.

---

**783.** What position is best for clients with emphysema under normal circumstances?

---

**784.** What is the best treatment for breast engorgement?

---

**785.** How often do clients with renal failure undergo dialysis?

---

**786.** What acid/base disorder is seen in Respiratory Distress Syndrome?

---

**787.** Why is final repair of the palate delayed until 4 to 5 years?

---

**788.** What organism causes syphilis?

---

**789.** In what position would you place a client in suspected hypovolemic shock?

---

**790.** For the patient with neurogenic bladder you should straight catheterize every \_\_\_ hours.

---

**791.** If a child swallows a potentially poisonous substance, what should be done first?

---

**792.** When a patient does not understand INCOMING language he is said to have \_\_\_ aphasia.

---

**793.** What is meant by decompensation?

---

**794.** The pain of osteoarthritis is usually better or worse with rest? With activity?

---

**795.** Fats carry vitamins

---

**796.** Respiratory Distress Syndrome occurs in full-term infants.

(T/F)

---

**797.** The toddler and preschooler will think that illness is caused by\_\_\_\_\_.

---

**798.** What is the most severe complication of otitis media?

---

**799.** Medical aseptic technique are aimed at reducing the number of organisms (T/F)

---

**800.** You should tell the client with CHF to immediately report to his/her doctor if he/she gains \_\_\_pounds in one week.

---

**801.** 1 oz

---

**802.** A decrease in urobilin in stool results in stool that is\_\_\_\_\_.  

---

**803.** What are the two most common complications of hyperemesis gravidarum?  

---

**804.** To prevent germs from getting into or out of a wound you should use what type of dressing?  

---

**805.** How fast do you run the CBI?  

---

**806.** What warning should you give the client about getting up after stapedectomy?  

---

**807.** What is an MI?  

---

**808.** What must be done to the equipment before injecting by Z-track method?  

---

**809.** Why is the dorsogluteal site not recommended for IM injection the children less than 3 years of age?

---

**810.** What structures in the brain are most affected in Parkinson's?

---

**811.** What two classes of drugs are given in Meniere's?

---

**812.** How long does it take for shingles to heal?

---

**813.** What part of your hand do you use to handle a wet cast?

---

**814.** Anaerobe (Define)

---

**815.** What type of diet is indicated for a woman with pre-eclampsia?

---

**816.** Does anything exit the skin in an AV fistula?

---

**817.** Name the three types of parasites abnormally found in stool.

---

**818.** What does left sided CHF mean?

---

**819.** What is hirsutism?

---

**820.** In the long term reorganization phase the woman is likely to experience \_\_\_ during sleep.

---

**821.** How often should the CVA patient be turned or repositioned?

---

**822.** How is an infant delivered when Abruptio Placenta is present?

---

**823.** Will breakthrough bleeding, nausea and vomiting and breast tenderness go away when a woman is on oral contraceptives?

---

**824.** What is diastole?

---

**825.** During what phase should the nurse examine his/her own feelings?

---

**826.** What other disease is related to shingles?

---

**827.** The Cushings syndrome patient will have \_\_\_\_\_ natremia, \_\_\_\_\_ kalemia and \_\_\_\_\_ glycemia.

---

**828.** Antacids

---

**829.** When changing central line tubing the patient should be told to\_\_\_\_\_?

---

**830.** -sclerosis

---

**831.** When a stump is wrapped, the bandage should be tightest \_\_\_\_\_ and loosest \_\_\_\_\_.

---

**832.** The most common symptom of abdominal aneurysm is:

---

**833.** What drug can you apply topically to stop bleeding?

---

**834.** In the diuretic phase, K<sup>+</sup> levels fall or rise?

---

**835.** Common signs of large ovarian cysts are...

---

**836.** Can cleft lip /palate babies sleep on their backs?

---

**837.** What color is the dialysate when it comes out?

---

**838.** How long will it take for the person to see results when acne is being treated?

---

**839.** Why are Adrenocorticotropic Hormone (ACTH) and prednisone given during acute MS?

---

**840.** Gluten is a \_\_\_\_\_.

---

**841.** A suppository given rectally must be lubricated with a water soluble lubricant. (T/F)

---

**842.** Aging decreases the risk of hypertension. (T/F)

---

**843.** What is endometriosis?

---

**844.** Aerobe (Define)

---

**845.** Can EGD be done on an uncooperative client?

---

**846.** What organ will be enlarged in polycythemia vera?

---

**847.** The solution introduced into the peritoneum during PD is called...

---

**848.** What two joints are most commonly affected in osteoarthritis?

---

**849.** In gestational diabetes the client experiences a (decrease/increase) in urine output.

---

**850.** The tremors of Parkinson's will get better or worse when they purposefully move or perform a task?

---

**851.** How does the mother break the suction of the breast feeding infant?

---

**852.** On what do lice feed?

---

**853.** Will fluid resuscitation (administering large amounts of IV fluid) treat cardiogenic shock?

---

**854.** Eye medications can be given directly over the cornea. (T/F)

---

**855.** What shape does Hgb S make the RBC's?

---

**856.** The primary diet treatment for uric acid nephrolithiasis is \_\_\_\_\_ - \_\_\_\_\_.

---

**857.** A fresh new stoma is \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_.

---

**858.** 90% of single-parent families are headed by a \_\_\_\_\_.

---

**859.** Are foods made with wheat, oat, or rye flour allowed?

---

**860.** Men with Cushings develop\_\_\_\_\_.

---

**861.** When discontinuing a PCA infusion it is acceptable to discard the drug cartridge. (T/F)

---

**862.** What positions are okay after cataract surgery?

---

**863.** What is the #1 cause of maternal death in CD of pregnancy?

---

**864.** Has hyperemesis gravidarum ever been associated with mixed feelings about pregnancy?

---

**865.** What is the treatment of for cast syndrome?

---

**866.** Lack of surfactant causes the neonate to lose lung capacity with each \_\_\_\_\_.  

---

**867.** Vasoconstriction will \_\_\_\_\_ blood pressure.  

---

**868.** Should you massage the calves of the client with CHF?

---

**869.** The urine output of the eclamptic client will (decrease/increase).

---

**870.** If your client suddenly goes into pulmonary edema what would you do first?

---

**871.** If labor does not begin within \_\_\_\_\_ hours after PROM, labor will likely be induced.

---

**872.** Scoliosis in the thoracic spine is usually convex to the (left/right).

---

**873.** In hepatitis the \_\_\_\_\_ are light colored.

---

**874.** Can an EGD be done on clients with GI bleeding?

---

**875.** Should vomiting be induced after ingestion of gasoline?

---

**876.** Carafate and sulcrafate

---

**877.** What is the highest that the temp will be in appendicitis?

---

**878.** What do caffeine and smoking do to blood pressure?

---

**879.** Prolonged intervals between breast-feeding (decrease/increase) the incidence of mastitis.

---

**880.** Initiative vs Guilt

---

**881.** When a dressing saturated, germs can enter the wound from the outside. (T/F)

---

**882.** How is the catheter taped in a male client?

---

**883.** When O<sub>2</sub> is administered, it must be...

---

**884.** What is a colostomy?

---

**885.** Will the man with BPH have enuresis, nocturia or hematuria?

---

**886.** What is Chadwick's sign?

---

**887.** What causes or precedes pyelonephritis?

---

**888.** What can happen if the client with COPD is given a high flow rate of O<sub>2</sub>?

---

**889.** Which disease has more severe symptoms-- Hepatitis A or B?

---

**890.** When unwrapping a sterile pack how should you unfold the top point?

---

**891.** Individuals who are ill are \_\_\_\_\_ sensitive to noise than individuals who are well.

---

**892.** How many nurses are required to check the blood?

---

**893.** Abnromally high blood pressure is called\_\_\_\_\_.

---

**894.** Mastitis usually occurs at least \_\_\_\_\_ days after delivery.

---

**895.** What organism causes epiglottitis?

---

**896.** What are the large, pale, foul smelling, greasy stools called?

---

**897.** What type of hearing loss is associated with otosclerosis?

---

**898.** Can morphine be given to a woman with CD during labor?

---

**899.** Anxiety-producing thoughts are called \_\_\_\_\_.  

---

**900.** Should hearing aids be removed before going for surgery?  

---

**901.** When is pre-eclampsia called eclampsia?  

---

**902.** The group with the highest incidence of Buerger's disease is \_\_\_\_\_.  

---

**903.** What is the pulse pressure?  

---

**904.** What 3 things precipitate a Raynaud's attack?  

---

**905.** Im-; in-  

---

**906.** After menopause, endometriosis (decreases/increases).  

---

**907.** A drug given by a parenteral route acts outside the GI tract. (T/F)  

---

**908.** How often should the patient use the incentive spirometer?  

---

**909.** Termination phase begins in the \_\_\_\_ phase.  

---

**910.** In what trimester does Abruptio Placenta most commonly occur?  

---

**911.** When PROM occurs, the age of the fetus must be determined. The best way to assess lung maturity is to check the \_\_\_\_\_ ratio.  

---

**912.** How do you calculate the pulse pressure?

---

**913.** In whom is Placenta Previa most likely to occur? Primigravida's or multigravida's?

---

**914.** Bacteriostatic (Define)

---

**915.** What is the typical diet for CF client?

---

**916.** Surgical asepsis (Define)

---

**917.** What body surface must be punctured to administer PD?

---

**918.** Capoten

---

**919.** What are the vital sign changes seen in autonomic dysreflexia?

---

**920.** In the diuretic phase, blood volume is \_\_\_\_, sodium is \_\_\_\_ and potassium is \_\_\_\_.

---

**921.** What position is contraindicated after cleft lip repair?

---

**922.** CHF can be right-sided, left sided or both-sided. (T/F)

---

**923.** Into how many stages is labor and delivery divided?

---

**924.** The loss of the ability to perform purposeful, skilled acts, ie brushing teeth, is called \_\_\_\_\_.

---

**925.** Define nuclear family

---

**926.** Insight means the ability of the patient to \_\_\_\_\_ his problem.

---

**927.** When fluid accumulates in the abdomen during PD what problem does the client experience first?

---

**928.** When blood is administered by IV, the needle/catheter should be \_\_\_\_\_ gauge.

---

**929.** Veggies are (high/low) in fiber.

---

**930.** What drug is given to anesthetize the pharynx?

---

**931.** Should you raise the HOB to increase drainage of the dialysate?

---

**932.** Is the client sedated before EGD?

---

**933.** The typical post-operative inflammatory temperature elevation is in the range of \_\_\_\_\_.

---

**934.** What IV solution is used during labor for the diabetic?

---

**935.** An infant is given a score of 1 if their respirations are \_\_\_\_\_ or \_\_\_\_\_.

---

**936.** Give another name for an MI.

---

**937.** What solution and material are used to cleanse the eyes of an infant?

---

**938.** Why do the crescent-shaped RBCs cause occlusion of the vessels?

---

**939.** Name 3 types of skeletal traction

---

**940.** When surgery is performed for Meniere's, what are the consequences?

---

**941.** Victims of rape often blame \_\_\_\_\_.

---

**942.** What diagnostic procedure confirms the diagnosis of endometriosis?

---

**943.** Have intrauterine devices to prevent pregnancy ever been linked to ectopic pregnancy?

---

**944.** The four most common organisms that cause meningitis are...

---

**945.** Contaminate (Define)

---

**946.** The most concentrated source of energy for the body is \_\_\_\_\_.

---

**947.** Meats are (high/low) in fiber.

---

**948.** What is meant by paroxysmal nocturnal dyspnea?

---

**949.** To straighten the ear canal in the young CHILD under 3 the pinna should be pulled \_\_\_\_ and \_\_\_\_.

---

**950.** If the kidney stone is calcium phosphate the diet must be low in \_\_\_ too.

---

**951.** The shock phase lasts for the first \_\_\_\_ to \_\_\_\_ hours after a burn.

---

**952.** What is the #1 treatment of celiac's disease?

---

**953.** Should you take a rectal temp after prostatectomy? Give stool softeners?

---

**954.** Iron (without nausea)

---

**955.** What solution is commonly used for care of umbilical cord?

---

**956.** How fast does the dialysate usually flow into the peritoneum?

---

**957.** What is arthroplasty

---

**958.** How long can breast milk be refrigerated?

---

**959.** How often must you assess the lung sounds during the first stage of labor? During active labor? During transition labor?

---

**960.** Describe the nipples on bottles used to feed babies with cleft lip?

---

**961.** Liquid doses of medications should be prepared at \_\_\_\_\_ level.

---

**962.** If the client complains of dyspnea during PD you would first \_\_\_\_\_, then \_\_\_\_\_.

---

**963.** Which androgen drug is most commonly used to treat endometriosis?

---

**964.** What is the common name for pediculosis?

---

**965.** The client with uric acid nephrolithiasis should have a diet low in \_\_\_\_\_.

---

**966.** What are the complications of EGD?

---

**967.** What are the two early signs of hypoxia?

---

**968.** What is the most common cause of mastoiditis?

---

**969.** What medication is given? By what route?

---

**970.** 1 gm

---

**971.** What do mydriatics do for the eye?

---

**972.** Will the client with a MI need 100% O<sub>2</sub> for their entire stay in the hospital?

---

**973.** What is hemianopsia?

---

**974.** What class of drugs is the client with an aneurysm most likely to be on?

---

**975.** Egg white is (high/low) in cholesterol?

---

**976.** The client with hemianopsia should be taught to \_\_\_\_\_.

---

**977.** What organism causes shingles?

---

**978.** Antibiotic (Define)

---

**979.** Clients on what class of drugs should use an elastic razor?

---

**980.** How often should the client cough and deep breath post-operatively?

---

**981.** What are the 3 most common chemotherapeutic GI side effects?

---

**982.** In emphysema, the alveoli are over-\_\_\_\_ and under-\_\_\_\_.

---

**983.** Atrial fibrillation increases the risk of CVA (T/F)

---

**984.** Describe the typical child with pyloric stenosis.

---

**985.** How long can an AV fistula be used?

---

**986.** MS affects men more than women. (T/F)

---

**987.** What is Lordosis?

---

**988.** How long should a woman wait before lifting heavy objects after a hysterectomy?

---

**989.** What type of rash occurs with shingles?

---

**990.** How long does it take a cast to dry?

---

**991.** Name the five/six essential nutrients

---

**992.** -ostomy

---

**993.** To straighten the ear canal in the ADULT, the nurse should pull the pinna \_\_\_\_\_ and \_\_\_\_\_.

---

**994.** If a client with emphysema has a severe dyspneic episode what position is best?

---

**995.** If a post-operative patient complains of gas and cramping you should first \_\_\_\_\_ then \_\_\_\_\_.

---

**996.** What class of drugs is given with ECT?

---

**997.** What is the #1 contracture problem after BKA?

---

**998.** If the fallopian tube ruptures due to ectopic pregnancy, nursing care is the same as that for \_\_\_\_\_.

---

**999.** The use of \_\_\_, \_\_\_, and \_\_\_ to kill self,  
make high risk suicide.

---

**1000.** Before administering vaginal medications the client is more comfortable if you ask them to \_\_\_\_\_.  

---

**1001.** When can an EGD client begin to eat after the test?  

---

**1002.** Are diuretics used for women with pre-eclampsia?  

---

**1003.** What are the major side effects of radiotherapy?  

---

**1004.** What are the urinasis findings on AGN?  

---

**1005.** What is petechiae?  

---

**1006.** Do you need an informed consent for a spinal tap?  

---

**1007.** What would you do if the client had any one of the following after cystoscopy: bladder spasm, burning, frequency?  

---

**1008.** What happens to the pulse pressure in hypovolemic shock?  

---

**1009.** -ectomy  

---

**1010.** Meningitis is an inflammation of the \_\_\_ of the \_\_\_ and spinal \_\_\_\_\_.  

---

**1011.** Sucrose is a sugar found in \_\_\_\_\_ and \_\_\_\_\_.  

---

**1012.** Which solution is used to irrigate a colostomy?  

---

**1013.** What is the activity order after labyrinthectomy?

---

**1014.** When are there activity restrictions after an EEG?

---

**1015.** What is meant by dyspnea on exertion?

---

**1016.** Host (Define)

---

**1017.** Name the 3 hematologic side effects of chemotherapy.

---

**1018.** Will the post prostectomy patient be impotent?

---

**1019.** Average blood loss during menstruation is \_\_\_\_cc.

---

**1020.** Where does the pain of appendicitis finally end up?

---

**1021.** What is the typical complexion of a client with polycythemia vera?

---

**1022.** How often should the post-operative patient turn?

---

**1023.** Post-menopausal females have a lower risk of heart disease than males aged 25-40. (T/F)

---

**1024.** Traction is used to \_\_\_\_ and \_\_\_\_ a fracture, relieve \_\_\_\_\_ and prevent \_\_\_\_\_.

---

**1025.** What kind of lubricant should be used on the suction catheter?

---

**1026.** How long is the dialysate allowed to remain in the peritoneum before it is drained out?

---

**1027.** Increased intracranial pressure will \_\_\_\_\_ the pulse pressure.

---

**1028.** The chancres of syphilis are (painful/painless).

---

**1029.** What do you see during and after feeding?

---

**1030.** What is the most common site for an AV shunt?

---

**1031.** Define Cystoscopy?

---

**1032.** What oral problem will people with polycythemia vera have?

---

**1033.** For which type of aphasia are slow, short, simple directions most useful?

---

**1034.** Asepsis (Define)

---

**1035.** Vital signs are measured \_\_\_\_\_ in the recovery room.

---

**1036.** What is the most common arrhythmia after a MI?

---

**1037.** Is cheese high in cholesterol?

---

**1038.** Ego Integrity vs. Despair

---

**1039.** Is blood a normal constituent of feces?

---

**1040.** Patients with hepatitis have an aversion to \_\_\_\_\_.

---

**1041.** Colostomies performed for a gunshot are usually (temporary/permanent)

---

**1042.** What does occult blood in the feces mean?

---

**1043.** If a patient has MG, what will be the results of the Tensilon Test?

---

**1044.** Give 6 symptoms of HIV disease.

---

**1045.** Can pregnancy convert a non-diabetic woman into a diabetic?

---

**1046.** How often should central line dressings be changed?

---

**1047.** The first sign that a fallopian ectopic pregnancy had ruptured is...

---

**1048.** What may be added to the IV to correct the acidosis?

---

**1049.** Pulmonary embolus is an obstruction of the pulmonary \_\_\_\_ bed by a dislodged \_\_\_\_ or foreign substance.

---

**1050.** If my blood pressure is 190/110, what is my pulse pressure?

---

**1051.** What test is done to confirm a diagnosis of pyloric stenosis?

---

**1052.** Anticholinergic

---

**1053.** Ectopic pregnancy is (usually/almost never) carried to term.

---

**1054.** Anorexics are usually \_\_\_\_\_ under the age of \_\_\_\_.

---

**1055.** The major problem in CF is \_\_\_\_\_.

---

**1056.** What hormones are active during follicular phase?

---

**1057.** What is the most common organism to cause UTI with catheterization?

---

**1058.** What do miotics do for the eye?

---

**1059.** Why is hypoglycemia such a dangerous problem?

---

**1060.** What is the simple formula for calculating fluid replacement needs in the first 24 hours?

---

**1061.** Should you assess for Homan's sign?

---

**1062.** To insure that Bryant's traction is working the child's hip/sacrum should be \_\_\_\_\_

---

**1063.** Adriamycin

---

**1064.** Name the two earliest signs that a woman is likely in labor.

---

**1065.** Is the woman likely to have a foley catheter in after a hysterectomy?

---

**1066.** Over secretion of mineralcorticoids only (give another name)

---

**1067.** If insulin is used, the dose is the same in all 3 trimesters. (T/F)

---

**1068.** During exam the vaginal speculum is lubricated before it is placed in the vagina? (T/F)

---

**1069.** Does client need to have side rails up after EGD?

---

**1070.** What drug is used to increase ventilation in clients with pulmonary edema?

---

**1071.** What is the maximal O<sub>2</sub> flow rate for the client with COPD?

---

**1072.** What precaution must be taken with potassium permanganate?

---

**1073.** What is present when rebound tenderness is present?

---

**1074.** Is CF hereditary?

---

**1075.** Should pregnant nurses care for a patient receiving unsealed internal radiotherapy?

---

**1076.** Patients with MS should be taught to walk with a \_\_\_-\_\_\_ gait.

---

**1077.** The convulsion (seizure) that the electrical current produced is violent. (T/F)

---

**1078.** If a family member asks to have the side rails down while they are in the room you should...

---

**1079.** Generativity vs. Stagnation

---

**1080.** What will the abdomen of clients with celiac's disease look like?

---

**1081.** Egg yolk is (high/low) in cholesterol?

---

**1082.** What is the most common side effect of accutane? And what is most important in health teaching in administration?

---

**1083.** What is the common name for Herpes Zoster?

---

**1084.** In Cushings syndrome, the client develops \_\_\_\_\_ face.

---

**1085.** The 3rd stage of labor and delivery lasts...

---

**1086.** What test CONFIRMS the presence of syphilis?

---

**1087.** What is the most effective way to decrease UTI with catheters?

---

**1088.** Should you cover an unhealed umbilical site with the diaper?

---

**1089.** What activity order is the client with an aneurysm supposed to have?

---

**1090.** Immediately after opening a bottle of sterile water, can you pour it directly into a sterile basin?

---

**1091.** What should be avoided in the arm of the client with an AV shunt?

---

**1092.** To lessen pain place the client in \_\_\_\_\_ position.

---

**1093.** The most radical prostate surgery is the \_\_\_\_\_ prostatectomy.

---

**1094.** Another name for surgical asepsis is...

---

**1095.** The #1 sign of MG is \_\_\_\_\_.

---

**1096.** Accurate blood pressure is obtained by using a cuff that has width of \_\_\_\_\_ of the arm.

---

**1097.** Do hearing aids help in otosclerosis?

---

**1098.** Which cells are low in thrombocytopenia?

---

**1099.** What are the dietary modifications for the recovery phase of acute renal failure?

---

**1100.** What are two major complications of a hysterectomy besides hemorrhage?

---

**1101.** Will the client with pyelonephritis have daily weights?

---

**1102.** What type of brace is most commonly used for scoliosis?

---

**1103.** Autonomy vs Shame and Doubt

---

**1104.** If you see an increase in blood content of urine coming out of the catheter, you would first \_\_\_\_\_.

---

**1105.** Do people recover from AGN?

---

**1106.** In eclamptic client what ominous sign almost always precedes a seizure?

---

**1107.** If you care for a client who is post-op for a repair of a femoral popliteal resection what assessment must you make every hour for the first 24 hours?

---

**1108.** What IV solution is hung with a blood transfusion?

---

**1109.** In what type of chair should Parkinson's patients sit?

---

**1110.** If the adult client's apical pulse is below 60, what should you do?

---

**1111.** What is oliguria?

---

**1112.** What are the dietary modifications for the diuretic phase of acute renal failure?

---

**1113.** During an acute bleeding episode, you should apply\_\_\_\_ for 15 minutes and apply\_\_\_\_\_.

---

**1114.** What would you do first if you suspected transfusion reaction?

---

**1115.** Which vital signs are most important to measure in clients with aneurysm?

---

**1116.** What blood test must be done before a transfusion?

---

**1117.** Preschoolers may require physical restraint during painful procedures. (T/F)

---

**1118.** What should the client with Raynaud's avoid?

---

**1119.** What is the #1 treatment for autonomic dysreflexia?

---

**1120.** Which heart rate is associated with hypovolemic shock, bradycardia or tachycardia?

---

**1121.** What is the #1 difference between sealed & unsealed radiation?

---

**1122.** What assessment finding is found under the right rib cage?

---

**1123.** What is the most common musculo-skeletal symptom of meningitis?

---

**1124.** Identify the activity restriction necessary after lumbar puncture?

---

**1125.** What is the increase in anterior-posterior diameter of emphysema called?

---

**1126.** Does breast engorgement interfere with nursing?

---

**1127.** What drugs can cause a Parkinson-like syndrome?

---

**1128.** A second-degree burn is pale or red?

---

1129. Children with cleft lip/palate should be fed in what position?

---

1130. Before the client with suspected appendicitis sees the physician what should be avoided?

---

1131. When 2 values are given in a blood pressure, the bottom number stands for the change in sounds or cessation of sounds?

---

1132. What is the #1 danger of epiglottitis?

---

1133. Spore (Define)

---

1134. If a patient has opisthotonus, in what position would you place them?

---

1135. The patient with Cushings Syndrome will have (increased/decreased) blood pressure.

---

1136. The pulse rate of anorexics is tachycardic or bradycardic?

---

1137. 12 to 20 years

---

1138. Clients with cystine nephrolithiasis should have a (n) \_\_\_\_\_ ash diet.

---

1139. The typical pneumonia of AIDS is caused by \_\_\_\_\_.

---

1140. Should you confront the obsessive-compulsive patient with the absurdity of their behavior?

---

1141. What is gynecomastia?

---

1142. It is not necessary to use electronic fetal monitoring when there is active bleeding in Placenta Previa. (T/F)

---

1143. The uterus feels \_\_\_\_\_ after rupture of a fallopian ectopic pregnancy?

---

**1144.** Women with endometriosis should be counseled to use (tampons/pads) during menstruation?

---

**1145.** The room of a patient with meningitis should be \_\_\_\_ and \_\_\_\_.

---

**1146.** Raynaud's is an arterial or venous disease?

---

**1147.** Meningitis can be caused by \_\_\_\_, \_\_\_\_, and \_\_\_\_.

---

**1148.** If too much fluid is removed during PD, the client will experience...

---

**1149.** People over 50 year are (low/high) risk for suicide.

---

**1150.** What nutrient is lost in highest amounts during PD?

---

**1151.** After rape, a woman needs follow-up exam/test for

---

---

**1152.** Give some signs of infection in a Foley catheter

---

**1153.** What kind of rod is used to "fix" curvature?

---

**1154.** ROM exercises should occur every 2 hours in CVA patients. (T/F)

---

**1155.** What is the name of the process in which outside agents cause birth defects in the fetus?

---

**1156.** What does nosocomial infection mean?

---

**1157.** Is dietary protein limited in AGN?

---

**1158.** What pain medication is given for the pain of a MI (Give three).

---

**1159.** Should the client roll the elastic stocking down to wash legs? Why or why not?

---

**1160.** How are cleft lip and cleft palate primarily treated?

---

**1161.** Can skin traction be removed for skin care?

---

**1162.** Give the 2 major roles of the family in society

---

**1163.** What three most common visual defects occur with cataract?

---

**1164.** Name the two sites used for intradermal injection.

---

**1165.** How long should the stump be elevated to prevent post op swelling?

---

**1166.** What will excessively fatty stool be like?

---

**1167.** The nurse should limit the client's efforts to \_\_\_\_\_ during labor when CD is present.

---

**1168.** Can you use alcohol on the earmold of a hearing aid?

---

**1169.** When the terminology "the three phases of labor" is used, what does it mean?

---

**1170.** Pulmonary edema usually results from \_\_\_\_\_ failure.

---

**1171.** When should the nurse WITHHOLD IM injections in the client on chemotherapy?

---

**1172.** What causes cast syndrome?

---

**1173.** How many pounds per week is the diabetic allowed to gain the 2nd and 3rd trimesters?

---

**1174.** How should a nurse carry soiled linen?

---

**1175.** Miotic

---

**1176.** What is the best way to prevent pulmonary embolus in post-operative patients?

---

**1177.** Heparin therapy is monitored by daily measurement of the \_\_\_\_\_.  

---

**1178.** If a transfusion reaction occurs what should the nurse do first?  

---

**1179.** What is done to correct pyloric stenosis?  

---

**1180.** To receive a 0 on reflex (neuromuscular) irritability the neonate must exhibit \_\_\_\_\_.  

---

**1181.** What other disease can be confused with pernicious anemia?  

---

**1182.** What are the two major treatments of pulmonary embolus?  

---

**1183.** What will be a high priority nursing diagnosis for a client post cataract surgery?  

---

**1184.** What is egocentricity? In what stage is it found?  

---

**1185.** What would you do if the client complains of flank pain (back pain) after hysterectomy?  

---

**1186.** If the blood pressure (systolic) falls below 80 mmHg, what would you do first in hypovolemic shock?  

---

**1187.** Should a woman with placenta previa be hospitalized?  

---

**1188.** What is alopecia?

---

**1189.** -cis

---

**1190.** To prevent eye medications from getting into the systemic circulation you apply pressure to the \_\_\_\_\_ for \_\_\_\_\_ seconds.

---

**1191.** When a person increases fiber in the diet they should do so\_\_\_\_\_.

---

**1192.** What is accomplished during the first stage of labor and delivery?

---

**1193.** Compare signs of non-ruptured ovarian cysts with the sings of a ruptured ovarian cyst. (Give 3 for each)

---

**1194.** What is cholesteatoma?

---

**1195.** When PD is being used the client must be on heparin. (T/F)

---

**1196.** What neurotransmitter is problematic in MG?

---

**1197.** IN BPH the man has (increased/decreased) frequency of urination

---

**1198.** What is a common side effect of mastoidectomy?

---

**1199.** What signs or symptoms would you report if they were present after cast application?

---

**1200.** What is the most common route for organisms to enter the bladder when a catheterization is used?

---

**1201.** per-

---

**1202.** People who are (hetero/homo) have sickle cell trait.

---

**1203.** What is the #1 cancer that AIDS patients get?

---

**1204.** Into what space is the needle inserted during a spinal tap?

---

**1205.** What is done in a graft for hemodialysis?

---

**1206.** Would you do a throat culture for a child with epiglottitis?

---

**1207.** Dangers associated with drafts are...

---

**1208.** Will the patient with meningitis have a headache?

---

**1209.** The feedings for an infant with pyloric stenosis should be thick or thin?

---

**1210.** What should the post-stapedectomy client do if he must sneeze?

---

**1211.** Anticholinesterases will have (sympathetic/cholinergic) side effects.

---

**1212.** In Placenta Previa the placenta is implanted \_\_\_\_ than it should be and lays over the \_\_\_\_ \_\_\_\_.

---

**1213.** What special item do clients with CHF have to wear to decrease venous stasis in the legs?

---

**1214.** What is the only treatment recommended for appendicitis?

---

**1215.** What are the steps of the nurse/patient therapeutic relationship?

---

**1216.** What the two most common causes of whistling and squealing of a hearing aid?

---

**1217.** Codeine

---

**1218.** Cytoxan cyclophosphamide

---

**1219.** What equipment should be at the bedside of an MG patient?

---

**1220.** In order to leave drugs at the bedside you must have a physician's order. (T/F)

---

**1221.** Spinal cord injury in the thoracic/lumbar regions result in \_\_plegia.

---

**1222.** How would you, the nurse, assess for developing cast syndrome?

---

**1223.** An individual is overweight if they are \_\_\_\_% above the ideal weight.

---

**1224.** What types of chemicals cause burns to oral mucosa when ingested?

---

**1225.** Can letting IVs run too fast cause pulmonary edema?

---

**1226.** Is otitis a disease of the adult or child?

---

**1227.** Steroids

---

**1228.** A sign of gestational diabetes is excessive (weight gain/weight loss)

---

**1229.** Should a woman douche after surgery to remove an ovarian cyst?

---

1230. How long does it take for the umbilical stump to fall off?

---

1231. Patients in Russell's traction are particularly prone to \_\_\_\_\_.

---

1232. -tripsy

---

1233. Pulmonary edema is accumulation of \_\_\_\_ in the lung.

---

1234. An aneurysim is an abnormal \_\_\_\_\_ of the wall of a(n) artery.

---

1235. CHF can result from MI. (T/F)

---

1236. In addition to the things you assess for in every woman during labor, what additional assessment must you make for a woman with CD?

---

1237. If the child's \_\_\_\_ are \_\_\_\_ and the trunk -face abdomen are \_\_\_\_, the child scores 1 on color

---

1238. What are the 3 complications of placenta previa?

---

1239. In later stages of hepatitis, the \_\_\_\_ turns dark.

---

1240. MS is a progressive \_\_\_\_ disease of the CNS.

---

1241. The digits in Raynaud's are hot or cold?

---

1242. Is vomiting projectile or non-projectile in patients with pyloric stenosis? Is the vomiting bile-stained or not bile-stained?

---

1243. -scope; -scopy

---

**1244.** What do you do for dehiscence?

---

**1245.** What are the four fat-soluble vitamins?

---

**1246.** When is apgar scoring performed on infants?

---

**1247.** What types of precautions will be in effect for a woman with severe pre-eclampsia?

---

**1248.** By what day post-op should the client begin to take care of their own stoma?

---

**1249.** What will be the results of the Rinne test in otosclerosis?

---

**1250.** What is the developmental task for later adulthood?

---

**1251.** Should lemon and glycerine swabs be used to cleanse the mouth?

---

**1252.** When Inderal is given in migraine headache, it is used to prevent or treat an attack?

---

**1253.** How long does spinal shock last?

---

**1254.** Hearing aids are more useful in sensory or conductive hearing loss?

---

**1255.** What are the 2 purposes of a spinal tap?

---

**1256.** Hepatitis C

---

**1257.** Retrosternal fibroplasia can result in \_\_\_\_\_.

---

**1258.** What is the word used to identify the feeling that the mother experiences when the fetus moves?

---

**1259.** Oral contraceptives decrease the risk of heart disease. (T/F)

---

**1260.** If the client complains of abdominal pain during PD you would first...

---

**1261.** What is the average blood loss during labor?

---

**1262.** What drugs are most commonly given before cystoscopy?

---

**1263.** The eye should be irrigated so that the solution flows from outer to inner canthus. (T/F)

---

**1264.** Which is the best method for identifying clients accurately?

---

**1265.** Name the 3 most common reasons for a colostomy.

---

**1266.** What commonly happens secondary to otitis media?

---

**1267.** Clients on what type of therapy must use a safety blade razor (non electric)?

---

**1268.** Name 3 types of skin traction

---

**1269.** Most rapes occur involving two people of different races. (T/F)

---

**1270.** What nutrients should be supplied in the diet of the pregnant woman with CD?

---

**1271.** What is ECT?

---

**1272.** Side effects of a high fiber diet include \_\_\_\_\_ and malabsorption of \_\_\_\_\_.

---

**1273.** Will client die of endometriosis? What would you say?

---

**1274.** Mastitis is accompanied by a fever over \_\_\_\_\_.

---

**1275.** Name the two phases of ovarian cycle.

---

**1276.** A newborn receives a score of 0 on muscle tone when there is\_\_\_\_\_

---

**1277.** When does spinal shock occur?

---

**1278.** Is the infant restrained BEFORE repair?

---

**1279.** As with any inflammatory disease clients with rheumatoid arthritis have a low-\_\_\_\_\_.

---

**1280.** What force causes the pulmonary edema in left ventricular failure?

---

**1281.** Pregnancy is divided into \_\_\_ trimesters.

---

**1282.** Should you retract the foreskin of a 5 week old male, uncircumcised infant to cleanse the area?

---

**1283.** What two discomforts are common during an EGD?

---

**1284.** Sulfamylon cream\_\_\_\_\_.

---

**1285.** Should caffeine be limited before an EEG?

---

**1286.** How often should the client's airway be suctioned?

---

**1287.** What are the first signs of AGN?

---

**1288.** Does the client have to be sedated before a spinal tap?

---

**1289.** Do you need a signed informed consent for an EEG?

---

**1290.** What is the best and safest way to confirm placenta previa?

---

**1291.** Hyperemesis Gravidarum is \_\_\_\_ and \_\_\_\_\_ vomiting that persists into the \_\_\_ trimester.

---

**1292.** When will phantom limb sensation subside?

---

**1293.** Would sympathetic stimulators or sympathetic blockers treat hypertension?

---

**1294.** If a central line is found accidentally open the patient should be positioned on his \_\_\_\_ \_\_\_\_.

---

**1295.** 1 g

---

**1296.** What should the client do if they get an attack?

---

**1297.** AFTER repair of cleft lip is infant allowed to cry? To breast feed?

---

**1298.** The MORE colon is removed the more \_\_\_\_\_ the stool.

---

**1299.** What is another name for external radiation therapy?

---

**1300.** Give three eye interventions for the client with Bell's Palsy.

---

**1301.** What is the top priority in the care of the client with anorexia nervosa?

---

1302. Oral hypoglycemics should never be used during pregnancy. (T/F)

---

1303. In the emergent phase do you cover burns? (in the field)

---

1304. The severe muscle weakness of MG gets better with exercise. (T/F)

---

1305. Malabsorption of which vitamin leads to bleeding disorder?

---

1306. What does bacteriostatic mean?

---

1307. If the client complains of decreased hearing after stapedectomy what would you say?

---

1308. What test identifies Rh factor?

---

1309. Clients with celiac's disease do not absorb what mineral?

---

1310. Tagamet

---

1311. The #1 danger in both Myasthenic and Cholinergic crisis is \_\_\_\_\_.  

---

1312. Some women experience discomfort when wearing contact lenses during pregnancy or menstrual periods. (T/F)  

---

1313. In emphysema, the appetite\_\_\_\_ the weight \_\_\_\_ and the anterior-post diameter of the chest\_\_\_\_.  

---

1314. What are the 3 causative factors in acne vulgaris?  

---

1315. Name the anticoagulant given for immediate anticoagulation by IV or SQ route.  

---

1316. Assuming no mastitis, on which side should the breastfeeding begin?  

---

**1317.** What is the #1 cause of CD of pregnancy?

---

**1318.** The patient with spinal cord injury will have (flaccid/spastic) muscles.

---

**1319.** If there are any signs of infection after PROM, what must occur immediately?

---

**1320.** The child with the diagnosis of CF probably had a history of \_\_\_\_\_ at birth.

---

**1321.** Which type of paralysis is typical of CVA- paraplegia, hemiplegia or quadriplegia?

---

**1322.** What is epitaxis?

---

**1323.** Pain medications should be administered \_\_\_\_\_ before \_\_\_\_\_ care.

---

**1324.** What is the most common NRTI used?

---

**1325.** What type of vomiting is present in meningitis?

---

**1326.** What percentage of North American families are single-parent?

---

**1327.** In gestational diabetes the client experiences a (decrease/increase) in thirst

---

**1328.** What unusual nursing diagnosis is high priority in pemphigus?

---

**1329.** High flow rates of O<sub>2</sub> delivered in Respiratory Distress Syndrome can cause \_\_\_\_\_.

---

**1330.** Before applying elastic hose the nurse should...

---

1331. Antibiotics are used to treat breast engorgement? (T/F)

---

1332. What precaution must the nurse take when administering topical nitro paste?

---

1333. At what age does BPH occur?

---

1334. What unusual post-operative complication can result from mastoidectomy?

---

1335. What heart problem can lead to pulmonary embolus?

---

1336. Name the most common side effect of carbonic anhydrase inhibitors?

---

1337. The client on a PCA pump is less likely to have post-operative complications than the client without a PCA pump. (T/F)

---

1338. When cardiac output fails, name three ways the heart will try to compensate.

---

1339. Which two of these classes of drugs cause tachycardia?

---

1340. Give choices

---

1341. PCA pumps allow a more constant level of serum drug than conventional analgesia. (T/F)

---

1342. What would you do if the cesium implant came out?

---

1343. Is it appropriate to massage the legs of the client to prevent pulmonary embolus?

---

1344. In what position should the client be immediately after ECT?

---

1345. Adolescents are (low/high) risk for suicide.

---

**1346.** Which aneurysm is most likely to have no symptoms?

---

**1347.** What is the normal adult blood pressure?

---

**1348.** Besides the Tensilon Test, what other diagnostic tests confirm a diagnosis of MG?

---

**1349.** The mother's insulin requirements will (fall/rise) markedly after delivery.

---

**1350.** What vitamin is not absorbed in a patient with pernicious anemia?

---

**1351.** -ase

---

**1352.** What does homozygous mean?

---

**1353.** What solution is used for CBI?

---

**1354.** What class of drugs is used to first treat hypertension?

---

**1355.** -rhaps; -rrhaphy

---

**1356.** Name the four most common parenteral routes of administrations.

---

**1357.** Accutane is an analog of which vitamin?

---

**1358.** If the dialysate does not drain out well, you would first...

---

**1359.** The most common intervention for the CF client with a diagnosis of decreased airway clearance is \_\_\_\_\_.

---

**1360.** Plastic pillow cases are \_\_\_\_\_. (disadvantages)

---

**1361.** What grains are not allowed in a gluten-free diet?

---

**1362.** What level of fever is present in epiglottitis?

---

**1363.** -otomy

---

**1364.** People who smoke more than \_\_\_\_ cigarettes per day should not be on oral contraceptives.

---

**1365.** The three most common complications after MI are \_\_\_\_\_, and \_\_\_\_\_.

---

**1366.** When does a nuclear family become an extended family?

---

**1367.** After you remove soiled dressings and before you put on the sterile dressing you must....

---

**1368.** T/F: AIDS patients get lymphomas?

---

**1369.** When sponge-bathing with tepid water the correct temp is \_\_\_\_\_.

---

**1370.** How long must a woman wait before having intercourse after hysterectomy?

---

**1371.** What are the stages of syphilis?

---

**1372.** With what device will the infant be restrained?

---

**1373.** From where should the nurse talk to the client?

---

**1374.** Ipecac

---

**1375.** How many days of the menstrual cycle do you take the combination pill?

---

**1376.** Sickle-cell anemia symptoms do not appear before the age of \_\_\_ months due to the presence of \_\_\_ \_\_\_\_.

---

**1377.** Eye drops should be placed directly into the \_\_\_ \_\_\_\_.

---

**1378.** Scoliosis is MOST common in the \_\_\_ and \_\_\_ sections of the spinal column.

---

**1379.** Trust vs Mistrust

---

**1380.** 6 to 12 years

---

**1381.** It is common practice to regard the edges of any sterile field as contaminated. (T/F)

---

**1382.** The patient who has a definite plan is (low/high) risk for suicide.

---

**1383.** When should a patient put on TED hose?

---

**1384.** How many days of the menstrual cycle do you take the progestin only pill?

---

**1385.** Clients with COPD are not good candidates for PCA pumps. (T/F)

---

**1386.** A drug for long term anticoagulation in any disorder would be?

---

**1387.** The 2nd stage of labor and delivery begins with \_\_\_ and ends with \_\_\_ of the \_\_\_.

---

**1388.** The suction should be delivered while (inserting/removing) the catheter.

---

1389. If the nurse uses self-disclosure it should be \_\_\_\_ and the conversation should be...

---

1390. What temperature is appropriate for the water used to bathe an infant?

---

1391. If a woman is admitted with active bleeding with Placenta Previa you should monitor fetal heart tones \_\_\_\_\_.

---

1392. With what is a round closed in first intention?

---

1393. What is the most challenging aspect of combination of drug therapy for HIV disease?

---

1394. Family history of liver disease increases the risk of heart disease. (T/F)

---

1395. Myelin promotes \_\_\_, \_\_\_ \_\_\_ of nerve impulses.

---

1396. What is the age range for middle adulthood?

---

1397. How long does one episode/course of PD last?

---

1398. Is the client sedated for a cystoscopy?

---

1399. Sensitivity (susceptibility) means...

---

1400. What is spinal shock?

---

1401. Oral medications have a (faster/slower) onset of action than IM drugs.

---

1402. -osis

---

1403. What are the signs and symptoms of a febrile transfusion reaction?

---

**1404.** When a patient is taking Levodopa he should have assistance getting out of bed because...

---

**1405.** What lubricant can safely be applied to the cracked lips of chemotherapy stomatitis?

---

**1406.** What is the first thing a nurse must do to help families in crisis?

---

**1407.** High growth hormone in an adult.

---

**1408.** A 10 on the apgar means the baby is

---

**1409.** Acrocyanosis

---

**1410.** What vitamins need to be replaced in CF?

---

**1411.** What is the classic motor manifestation of Parkinson's?

---

**1412.** What drug can be given to treat urinary retention in MS?

---

**1413.** What treatment modality can lead to pulmonary embolus?

---

**1414.** How do you tell if a client has angina or an MI?

---

**1415.** What is the difference between external radiation treatment and internal radiation treatment?

---

**1416.** How often should mouth care be performed for those clients on oxygen?

---

**1417.** In hypovolemic shock the output of urine will be less than \_\_\_\_ cc per hour.

---

**1418.** What blood count is elevated in appendicitis?

---

**1419.** When coumadin is therapeutic, the INR should be between \_\_\_\_\_ and \_\_\_\_\_.

---

**1420.** What will you hear when you auscultate the heart of the client with CD of pregnancy?

---

**1421.** When a client voices embarrassment over the noises that their colostomy makes on the first post-op day, what would you say?

---

**1422.** What is the BIG danger in renal failure?

---

**1423.** What is the medical treatment for mastoiditis?

---

**1424.** Penicillin

---

**1425.** When is cleft palate repaired?

---

**1426.** When will bowel sounds return after a hysterectomy?

---

**1427.** What is the purpose of restricting activity after spinal tap?

---

**1428.** What is the #1 treatment of cast syndrome?

---

**1429.** How can the woman with cesium implant move in bed?

---

**1430.** Children at highest risk for seizure activity after ingestion are those who have swallowed \_\_\_\_\_ and \_\_\_\_\_.

---

**1431.** If the nurse accidentally runs the IVs at the shock phase rate during the diuretic phase the patient will experience?

---

**1432.** -plast

---

**1433.** Is it ok to routinely irrigate indwelling catheters?

---

**1434.** You may use friction to remove vernix caseosa from an infant's skin. (T/F)

---

**1435.** Intimacy vs. Isolation

---

**1436.** What are the signs of symptoms of an allergic reaction to a transfusion?

---

**1437.** Sterile (Define)

---

**1438.** When shaving a client, water used should be more (hot/cold) than bath water?

---

**1439.** What outcomes would indicate that suctioning was effective?

---

**1440.** If a woman doesn't stop oral contraceptives one week before surgery she is at risk for developing\_\_\_\_\_.

---

**1441.** What is the highest flow rate appropriate for nasal cannulae?

---

**1442.** Are Heberden's nodes painful?

---

**1443.** Patients with Parkinson's tend to have constipation or diarrhea?

---

**1444.** On what type of isolation will the patient with meningitis be?

---

**1445.** What age group gets osteoarthritis?

---

**1446.** Describe the hygiene measures the you teach the patient receiving external radiotherapy?

---

**1447.** The preferred gauge of needle for IM injection is...

---

**1448.** Routine exercise decreases the risk of heart disease. (T/F)

---

**1449.** Define debridement.

---

**1450.** In what step of the nursing process does the nurse ask the family about their beliefs on illness?

---

**1451.** What blood cell is low in leukopenia?

---

**1452.** Is bed rest necessary when a woman has cesium implant in place?

---

**1453.** What should a woman do if she forgets to take her pill for 3 days or more?

---

**1454.** Cushings Man aka Cush Man

---

**1455.** If there is inflammation under a cast, it will be evident in a \_\_\_\_\_ spot.

---

**1456.** Can a client who had recent bowel surgery get PD?

---

**1457.** Veggies are allowed or not allowed in diet of client with Celiac's disease?

---

**1458.** What is the surgery done for Meniere's?

---

**1459.** Clients with AIDS (gain/lose) weight?

---

**1460.** How often should a woman visit the doctor prenatally if diabetes is present?

---

**1461.** If ear medications are not given at room temperature the client may experience...

---

**1462.** How long does an ovarian cycle last?

---

**1463.** Should you allow an obsessive-compulsive person perform their compulsive behavior?

---

**1464.** Osteoarthritis is most commonly caused by the wear and tear of life. (T/F)

---

**1465.** Is a C-section mandatory for delivery of a woman with CD of pregnancy?

---

**1466.** What class of drugs is used to treat mastitis?

---

**1467.** What virus causes AIDS?

---

**1468.** What type of pain is typical of migraines?

---

**1469.** What syndrome results when too much fluid is exchanged during hemodialysis too quickly?

---

**1470.** What three drugs can be given for muscle spasms?

---

**1471.** When the lens is to be extracted for cataracts, what drugs are given preoperatively?

---

**1472.** The rape victim requires only a pelvic exam & a head to toe exam is not done, so the client is not stressed. (T/F)

---

**1473.** What is cycloplegia?

---

**1474.** What are the top 2 diagnoses for a client with a catheter? Which is #1?

---

**1475.** A Second degree-burn is wet or dry?

---

**1476.** Upon walking the patient with Buerger's experiences \_\_\_\_\_.

---

**1477.** Define EGD

---

**1478.** Should a client who is having breathing problems receive PD?

---

**1479.** When are urine pregnancy tests positive?

---

**1480.** How long before surgery must you discontinue oral contraceptives?

---

**1481.** How should a client's toenails be trimmed?

---

**1482.** If you see clots in the tubing you would first \_\_\_\_\_.

---

**1483.** How long is the first stage of labor and delivery for a primagravida? For a multigravida?

---

**1484.** Rifampin

---

**1485.** Before evidence from the woman's body can be gathered for rape, \_\_\_\_\_ must be completed.

---

**1486.** The onset of post operative infection is on the \_\_\_\_\_ or \_\_\_\_\_ day post-operative day.

---

**1487.** Cushings syndrome is \_\_\_\_\_ secretion of \_\_\_\_\_, \_\_\_\_\_ and \_\_\_\_\_ by the \_\_\_\_\_.

---

**1488.** Are rest periods and range of motion exercises appropriate in the care of osteoarthritis?

---

**1489.** The greatest danger in placing water in the mouth of the unconscious patient during oral hygiene is...

---

**1490.** What is another name of second intention?

---

**1491.** How would you palpate the uterus to see if the eclamptic woman was having contractions?

---

**1492.** Women with Cushings develop?

---

**1493.** The preschooler fears separation as well as \_\_\_\_\_ when hospitalized.

---

**1494.** After corrective SURGERY how is the client turned?

---

**1495.** What will you observe on the hands of the client with emphysema?

---

**1496.** What intellectual ability is impaired after ECT?

---

**1497.** What is the treatment of choice for syphilis?

---

**1498.** What occurs during the 4th stage of labor and delivery?

---

**1499.** What does BKA mean?

---

**1500.** If mastitis occurs 1+ weeks after delivery, when does breast engorgement occur?

---

**1501.** In the diuretic phase: urine output can=\_\_\_\_\_ to  
\_\_\_\_\_ liters/24 hours.

---

**1502.** How many times per day will the client irrigate his colostomy?

---

**1503.** What is meant by the term "temporary colostomy"?

---

**1504.** When pouring liquid onto a sterile field you should pour from a height of \_\_\_ to \_\_\_ inches above sterile field.

---

**1505.** Peer group important

---

**1506.** 18 months to 3 years

---

**1507.** What is dentifrice?

---

**1508.** How do you assess fluid excess in the child with AGN?

---

**1509.** Does the client have to be NPO before a spinal tap?

---

**1510.** If ketosis is a big problem for the baby during pregnancy what the big problem after delivery?

---

**1511.** What is the name for an elevated WBC?

---

**1512.** Endometriosis most commonly occurs in women between ages of \_\_\_ and \_\_\_\_.

---

**1513.** What is the #1 cause of death in pemphigus?

---

**1514.** Why is cleft lip repaired early?

---

**1515.** Two purposes of bed bath are...

---

**1516.** A first degree burn has vesicles (T/F)?

---

**1517.** Do plant foods contain any cholesterol?

---

1518. Which organism causes pyelonephritis?

---

1519. What is the surgery for mastoiditis called?

---

1520. What skin symptoms do you see in hepatitis? (Give 2)

---

1521. If an aneurysm is ruptured how would you know it?

---

1522. Portal of entry (Define)

---

1523. Does AIDS require a single room?

---

1524. Airborne microorganisms travel on \_\_\_\_\_ or \_\_\_\_\_ particles.

---

1525. The client with celiacs cannot tolerate\_\_\_\_\_.

---

1526. In Abruptio Placenta, the placenta \_\_\_\_\_ from the uterine wall \_\_\_\_\_.

---

1527. When mastitis is present the breasts are \_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.

---

1528. What is the best location in a client's room to set up a sterile field?

---

1529. The post op thoracic aneurysm is most likely to have which type of tube?

---

1530. Kaposi's sarcoma is a cancer of the \_\_\_\_\_.

---

1531. What is the major function of the luteal phase of the ovarian cycle?

---

**1532.** Once you have stopped the bleeding into the joint, how long should the hemarthrosis patient wait before bearing weight or doing range of motion?

---

**1533.** What solution should be used to clear the tubing during suctioning?

---

**1534.** Grains of all kinds are prohibited. (T/F)

---

**1535.** If the client has right homonymous hemianopsia, the food on the \_\_\_ side of the tray may be ignored.

---

**1536.** Define Leukopenia

---

**1537.** Is severe carbohydrate restriction required in gestational diabetics?

---

**1538.** In the rule of nines, the head and neck receive \_\_\_\_: each arm receives \_\_\_\_.

---

**1539.** Which age group(s) are most likely to experience PIH?

---

**1540.** With PD there is a high/low risk of peritonitis?

---

**1541.** What is another name for Buerger's disease?

---

**1542.** What is the biggest challenge in nursing care of the client with hyperemesis gravidarum?

---

**1543.** Intimacy vs Isolation

---

**1544.** To get a score of 1 on the APGAR for muscle tone the newborn must place their extremities in \_\_\_\_\_.

---

**1545.** What daily measurement best indicates the amount of fluid the client is retaining?

---

**1546.** What is the name of the RLQ abd pain where appendicitis pain finally localizes?

---

**1547.** What should the client avoid after labyrinthectomy?

---

**1548.** What is the #1 purpose of a tepid sponge bath?

---

**1549.** How long is the needle kept inserted during Z-track injection?

---

**1550.** When the AIDS patient has a low platelet count, what is indicated?

---

**1551.** Sulfonamides

---

**1552.** What glands are affected in CF?

---

**1553.** What is the developmental task for early adulthood?

---

**1554.** Bleomycin

---

**1555.** If you are the nurse starting the IV on the client with Abruptia Placenta, what guage needle should you use?

---

**1556.** Should side rails be up after stapedectomy ?

---

**1557.** NRTI (nucleoside reverse transcriptase inhibitors)

---

**1558.** To prevent urinary incontinence; the CVA patient should be catheterized. (T/F)

---

**1559.** On the HR criteria an infant scores a "1" if their HR is \_\_\_\_\_ than 0 and \_\_\_\_\_ 100

---

**1560.** The most common type of crisis that occurs is a \_\_\_\_\_-\_\_\_\_\_ crisis.

---

**1561.** When cleansing an infant's eye, cleanse from outer to inner canthus?

---

**1562.** If an aneurysm ruptures what is the #1 priority?

---

**1563.** What is the most common complaint after an EGD?

---

**1564.** In the recovery room (PACU) the patient should be positioned....

---

**1565.** It is safe practice to administer drugs prepared by another nurse. (T/F)

---

**1566.** How should drugs that stain teeth be administered?

---

**1567.** How often should the nurse auscultate the lung sounds post-operatively?

---

**1568.** What type of environmental modification is best for a migraine?

---

**1569.** Effective heparin therapy rises the PTT to approximately \_\_\_\_\_ times normal.

---

**1570.** Name the three types of CVA

---

**1571.** What are the three major treatment objectives in eclampsia?

---

**1572.** Who is the most common subjective symptoms of shingles?

---

**1573.** What is opisthotonus?

---

1574. Celiac's disease is a \_\_\_\_\_ disease

---

1575. Clients on heparin should use an electric razor or safety razor?

---

1576. If the neonate \_\_\_\_\_, they will score a 1 on neuromuscular irritability.

---

1577. What drugs are most commonly used?

---

1578. What drug is use to treat bladder spasm?

---

1579. Of CPK and LDH which rises earliest?

---

1580. Should children with cleft palate BEFORE surgery be allowed to cry? To breast-feed?

---

1581. What is systole?

---

1582. The goal of action while the suicidal patient is still off the phone is to get \_\_\_\_\_ person \_\_\_\_\_ the \_\_\_\_\_.

---

1583. A CD4 count of under \_\_\_\_\_ is associated with the onset of opportunistic infections.

---

1584. When the CVA client understands your question but can't respond verbally correctly, he is said to have \_\_\_\_\_ aphasia.

---

1585. What is paralytic ileus?

---

1586. What does hemarthrosis mean?

---

1587. A second-degree burn has vesicles? (T/F)

---

**1588.** In the long term reorganization phase the woman is likely to change \_\_\_\_\_.  
\_\_\_\_\_

**1589.** Nuts, seeds, and legumes are (high/low) in fiber.  
\_\_\_\_\_

**1590.** What is meant by the phrase "advance the drain 1 inch"?  
\_\_\_\_\_

**1591.** If epiglottitis is suspected, what should the parents be told?  
\_\_\_\_\_

**1592.** What is the first sign of pulmonary embolus?  
\_\_\_\_\_

**1593.** What does the eye look like when a client has cataracts?  
\_\_\_\_\_

**1594.** What are 4 signs and symptoms of mastoiditis?  
\_\_\_\_\_

**1595.** In Cushing's the blood sugar is (increased/decreased).  
\_\_\_\_\_

**1596.** The cause of cancer is known. (T/F)  
\_\_\_\_\_

**1597.** Name a drug given to treat migraine?  
\_\_\_\_\_

**1598.** The patient with a recent CVA is most likely to have fluids restricted or forced?  
\_\_\_\_\_

**1599.** Can drugs be piggybacked into central --TPN?  
\_\_\_\_\_

**1600.** With what solution should blood be transfused?  
\_\_\_\_\_

**1601.** After appendectomy, document in the nurses notes the return of \_\_\_\_\_.  
\_\_\_\_\_

**1602.** Parkinson's patients move fast or slow?

---

**1603.** -stasis

---

**1604.** What is the problem with giving high flow rates of O<sub>2</sub> by nasal cannulae?

---

**1605.** What should the client expect regarding hearing post-stapedectomy?

---

**1606.** Name the three groups of drugs used to treat CHF?

---

**1607.** ante-

---

**1608.** The preferred angle of injection to be used for IM administration is\_\_\_\_\_.

---

**1609.** Why is the child with CF receiving pancreas/viokase/pancreatin?

---

**1610.** What is the definitive diagnostic test for meningitis?

---

**1611.** Name the 3 phases of burn

---

**1612.** Is urinary incontinence an indication for catheterization?

---

**1613.** What is the first sign of MS?

---

**1614.** What is pyelonephritis?

---

**1615.** What is Curlings ulcer? Why is it a problem in burn patients? What drug prevents it?

---

**1616.** What is the normal color of cerebrospinal fluid?

---

**1617.** People between 25 and 50 years are (low/moderate /high) risk for suicide.

---

**1618.** Never apply \_\_\_\_\_ to the area of the appendix.

---

**1619.** What is the classic test for CF?

---

**1620.** Name ways to toughen a stump so it will not breakdown due to the wear of the prosthetic leg?

---

**1621.** What drug is used in pulmonary edema to reduce fluid in the lungs?

---

**1622.** Heparin is used in the acute phase of pulmonary embolus. What drug is used for 6 months after pulmonary embolus?

---

**1623.** Is commercial ice cream allowed on a gluten-free diet?

---

**1624.** MS usually occurs in (hot/cool) climates .

---

**1625.** What do you do first for the client experiencing autonomic dysreflexia?

---

**1626.** Neoplasm refers to benign and malignant tumors. (T/F)

---

**1627.** Will a simple mastoidectomy worsen hearing?

---

**1628.** Micro-organisms grow best in a \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_ place.

---

**1629.** Should sedatives be given before an EEG?

---

**1630.** The connecting tube of a hearing aid can be cleansed with\_\_\_\_\_.

---

**1631.** What will you find when you assess the legs of these patients?

---

**1632.** Give three reasons for giving a back rub.

---

**1633.** Hypertension is often fatal if untreated. (T/F)

---

**1634.** What can be done during an EGD besides visualization?

---

**1635.** When a client is unable to hold his dentures firmly in his mouth, the nurse should...

---

**1636.** Which type of tumor is more malignant? Differentiated or undifferentiated?

---

**1637.** When men get MG they are usually old or young?

---

**1638.** What do you observe on the fingers of the client osteoarthritis?

---

**1639.** Is the client NPO before cystoscopy?

---

**1640.** When giving a bed bath, on which body party should the nurse begin to work?

---

**1641.** Will the muscles of MS clients be spastic or flaccid?

---

**1642.** How long does the average dialysis last?

---

**1643.** How soon after cell damage does troponin increase?

---

**1644.** A high score of 2 is given for respiratory effort if the newborn \_\_\_\_\_.

---

**1645.** What four symptoms in a patient with a cesium implant should be reported to the physician?

---

**1646.** To control the pain of osteoarthritis one should use heat or cold?

---

**1647.** What test/exam CONFIRMS the diagnosis of scoliosis?

---

**1648.** In hypovolemic shock there is a \_\_\_\_\_ in the circulating \_\_\_\_\_ volume -- this \_\_\_\_\_ tissue perfusion with \_\_\_\_\_.

---

**1649.** During pregnancy what complications is most dangerous for the fetus of a diabetic?

---

**1650.** What is otosclerosis?

---

**1651.** The use of pills makes the patient (low/moderate/high) risk for suicide.

---

**1652.** Peritonitis

---

**1653.** Centers on having basic needs met

---

**1654.** Theophylline derivative

---

**1655.** The development of emphysema is most associated with a history of \_\_\_\_\_.

---

**1656.** -gram; -graphy

---

**1657.** Is there a higher or lower incidence of fetal death with Abruptio Placenta compared to Placenta Previa?

---

**1658.** What type of diet is the client with Meniere's on?

---

**1659.** What drug will be used to treat PVCs of MI?

---

**1660.** If you use too narrow of a cuff the reading will be too high or low?

---

**1661.** What is the #1 side effect of antihypertensives?

---

**1662.** The patient with pyelonephritis will have (hypertension/hypotension)?

---

**1663.** Are meats allowed on a gluten-free diet?

---

**1664.** With severe pulmonary embolus the client will look as though they are \_\_\_\_\_.

---

**1665.** What type of dressing is applied to a central line insertion site?

---

**1666.** What factor do clients with pernicious anemia lack?

---

**1667.** What 3 sensations will the client experience?

---

**1668.** The client should remain supine for 5 minutes after having received a rectal suppository. (T/F)

---

**1669.** Who is the most likely to receive a graft for dialysis?

---

**1670.** What type of cast causes cast syndrome?

---

**1671.** At what age are accidental poisonings most common?

---

**1672.** The 3rd stage of labor and delivery accomplishes...

---

**1673.** How often do you measure vital signs during PD?

---

**1674.** What sign would indicate the presence of thrombophlebitis?

---

**1675.** It is safe practice to recap needles after injection. (T/F)

---

**1676.** Cloudy drainage in the dialysate commonly means...

---

**1677.** When are hemolytic transfusion reactions likely to occur?

---

**1678.** What blood value will dictate IV flow rate?

---

**1679.** How much suction should be used for a child?

---

**1680.** What is the most important intervention in treating AGN?

---

**1681.** The best way to prevent thrombophlebitis is TED hose. (T/F)

---

**1682.** Cisplatin

---

**1683.** What happens to the kidney in AGN?

---

**1684.** The second trimester goes from week \_\_\_\_ to week \_\_\_\_.

---

**1685.** carbs provide \_\_\_\_\_ Kcalories per 1 gram

---

**1686.** What is global aphasia?

---

**1687.** What blood type is the universal donor?

---

**1688.** What is the most common dietary restriction for AGN?

---

**1689.** Name four drugs used to treat Parkinson's.

---

**1690.** Fruits are allowed or not allowed?

---

**1691.** What structures are involved in acne vulgaris?

---

**1692.** What are the post-operative signs of hemorrhage into the eye?

---

**1693.** When 2 values are given in a blood pressure the first is the \_\_\_\_\_ measurement.

---

**1694.** The long term treatment of migraine focuses upon...

---

**1695.** Name two foods high in methionine.

---

**1696.** The adolescent who is hospitalized fears separation from \_\_\_\_\_ and loss of \_\_\_\_\_.

---

**1697.** When will the artificial airway be removed in the recovery room?

---

**1698.** Non-steroidal anti-inflammatory drugs

---

**1699.** Name the four basic food groups

---

**1700.** Average duration of menstrual flow is \_\_\_\_\_. The normal range is \_\_\_\_ to \_\_\_\_\_ days.

---

**1701.** How many hours a day should the client wear a Milwaukee brace?

---

**1702.** What medical intervention is necessary in pyelonephritis?

---

**1703.** In the oliguric phase, blood volume is \_\_\_\_\_, sodium is \_\_\_\_\_, and potassium is \_\_\_\_\_.

---

**1704.** Where is the pain of migraine most likely located?

---

**1705.** Pancreas pancreatin isozyme

---

**1706.** What are the three most common drugs given to women with CD in pregnancy?

---

**1707.** What is the #1 treatment of CD during pregnancy?

---

**1708.** What is the apgar scale?

---

**1709.** Colostomies performed for cancer tend to be (temporary/permanent).

---

**1710.** How should you change the position of the spinal cord injury patient after he has an order to be up? Why?

---

**1711.** Will the patient be able to close their eye on the affected side?

---

**1712.** The neurotransmitter imbalance that causes Parkinson's is a \_\_\_\_ in \_\_\_\_ \_\_\_\_.

---

**1713.** 1 ml

---

**1714.** What three drugs are given for shingles?

---

**1715.** What is methionine?

---

**1716.** Cushings clients will have (increased/decreased) resistance to infection.

---

**1717.** Transverse Colostomy

---

**1718.** What dietary prescription is most appropriate for the client with emphysema?

---

**1719.** Should the nurse self-disclose if the patient asks the nurse to?

---

**1720.** Osteoarthritis is more common in females. (T/F)

---

**1721.** What is the most important thing to remember about giving Mestinon and other anticholesterinases?

---

**1722.** Which trimester is the fetus most susceptible to effects of outside agents?

---

**1723.** Severe cases of Respiratory Distress Syndrome requires ventilation with \_\_\_\_\_.

---

**1724.** What should you do if an obsessive-compulsive patient is always late due to their rituals?

---

**1725.** Is hemodialysis short term or long term?

---

**1726.** What is the classic symptom of Placenta Previa?

---

**1727.** When giving a Z-track injection, the overlying skin is pulled (up/down/medially/laterally).

---

**1728.** -centesis

---

**1729.** Name two anticholinergics used in the eye.

---

**1730.** What force is used to introduce the dialysate into the peritoneum?

---

**1731.** How long can a unit of blood be on the unit before it must be started?

---

**1732.** The man with BPH has a \_\_\_\_\_-stream of urine

---

**1733.** If the client with aneurysm is physically unstable, should you encourage turning, coughing and deep breathing?

---

**1734.** Can a woman on oral contraceptives breastfed?

---

**1735.** Will a child with epiglottitis cough?

---

**1736.** For which type aphasia is careful listening and needs anticipation most useful?

---

**1737.** What kinds of fluids will clients with pemphigus drink best?

---

**1738.** Griseofulvin

---

**1739.** MS can lead to urinary incontinence. (T/F)

---

**1740.** Can the woman with a cesium implant have the HOB elevated?

---

**1741.** Should the nurse provide perineal care for the client with a cesium implant?

---

**1742.** An aneurysm will most affect which of the following, the blood pressure or the pulse?

---

**1743.** Are all articles used by AIDS patients double-bagged?

---

**1744.** When should the child with CF take his pancreatin/viokase/pancreas?

---

**1745.** List ways to ensure privacy...

---

**1746.** Hepatitis A

---

**1747.** -desis

---

**1748.** How long will a client's memory be impaired after ECT?

---

**1749.** What are the 3 principles the nurse uses to protect self when caring for a client with a sealed radioactive implant?

---

**1750.** After cleft lip repair, what device will the baby wear?

---

**1751.** The toddler fears \_\_\_\_\_ most when hospitalized.

---

**1752.** What are the two types of oral contraceptives?

---

**1753.** Which test is the best indicator of the progress of HIV disease?

---

**1754.** In what position should the bed be if the patient is in pelvic traction?

---

**1755.** What do anticholinergics do for the eye?

---

**1756.** Appendicitis is an \_\_\_\_\_ of the appendix due to \_\_\_\_\_.

---

**1757.** The person with emphysema have \_\_\_\_\_, \_\_\_\_\_ lips and (slow/rapid) breathing.

---

**1758.** Do you assess for suicide potential whenever a patient makes any statement about wanting to die or kill self?

---

**1759.** Vincristine

---

**1760.** Should the client ambulate independently after cataract surgery?

---

**1761.** When is a bad time to change dressings?

---

**1762.** What are the dietary modifications for the oliguric phase of acute renal failure?

---

**1763.** What skin products should the patient receiving external radiotherapy AVOID?

---

**1764.** Bactericide (Define)

---

**1765.** What is the activity order for clients with CHF?

---

**1766.** Para-amino salicylate sodium (PAS)

---

**1767.** Oral contraceptives (increase/decrease/do not effect) the blood pressure.

---

**1768.** Besides pain, people with migraines complain of what other symptoms?

---

**1769.** Clients with a Milwaukee brace should avoid vigorous exercise. (T/F)

---

**1770.** What should the client do after an EEG?

---

**1771.** Mydriatic

---

**1772.** Will the woman with a cesium implant have a foley?

---

**1773.** Medical asepsis (Define)

---

**1774.** What do NRTI's and PI's do?

---

**1775.** Aphasia is most common if the stroke occurred in the (dominant/non-dominant) hemisphere of the brain.

---

**1776.** What is seen on the abdomen of the patient with Cushings?

---

**1777.** The abnormal hemoglobin produced by people with sickle cell anemia is called Hgb \_\_\_\_.

---

**1778.** What is the most common complication of appendicitis?

---

**1779.** Hepatitis is an \_\_\_, \_\_\_ disease of the \_\_\_\_.

---

**1780.** Rectal suppositories with an oil base should be kept refrigerated. (T/F)

---

**1781.** Of: married, divorced, and separated, which marital status is highest risk for suicide? Lowest risk of suicide?

---

**1782.** The CVA patient should be turned onto his paralyzed side no longer than 2 hours. (T/F)

---

**1783.** After administration of a vaginal durg the client should remain \_\_\_ for \_\_\_ minutes.

---

**1784.** 1 tsp

---

**1785.** What pre-test activities must be performed before the EGD?

---

**1786.** What is cleft lip?

---

**1787.** What is the most dangerous complication of EGD?

---

**1788.** The preferred IM injection site for children under 3 is the \_\_\_\_\_.

---

**1789.** If the mother has an open abscess on her breast, must not breast-feed. (T/F)

---

**1790.** Pregnancy tests test for the presence of what hormone?

---

**1791.** How warm should the irrigation solution be?

---

**1792.** What grains are allowed in a gluten-free diet?

---

**1793.** Why is digitalis given to women with CD of pregnancy?

---

**1794.** What do CF clients need to do (ingest) in hot weather?

---

**1795.** What might Levodopa do to patients urine?

---

**1796.** What must the mother do after feeding the baby who has had cleft lip/palate repair?

---

**1797.** What is the #1 reason why MD's remove ovarian cysts?

---

**1798.** When does typing and cross matching need to be done?

---

**1799.** When applying restraints remember to...

---

**1800.** What if a woman forgets to take the pill for two days in a row? What should she do?

---

**1801.** Can a woman with CD of pregnancy be given analgesics during labor?

---

**1802.** Which organism most commonly causes mastitis?

---

**1803.** What does TURP stand for?

---

1804. Over secretion of adrenal medulla

---

1805. What is meant by the term "double barrel" colostomy?

---

1806. Scoliosis is a \_\_\_\_ curvature of the \_\_\_\_.

---

1807. What would you do if the client's urine was pink-tinged after cystoscopy?

---

1808. What class of drugs can lead to pulmonary embolus?

---

1809. What are the signs and symptoms of a hemolytic transfusion reaction?

---

1810. Second to rest, what is very important treatment for CD of pregnancy?

---

1811. How should the temperature of the water be tested if no thermometer is available?

---

1812. Is heart rate fast or slow in pulmonary edema?

---

1813. If you deflate a cuff TOO SLOWLY, the reading will be too high or low? Why?

---

1814. During menstruation, the average daily loss of iron is \_\_\_\_ mg.

---

1815. Hypothyroid in a child

---

1816. The nurse should introduce information about the end of the nurse/patient relationship during the \_\_\_\_ phase.

---

1817. Define renal failure.

---

1818. The Cushings syndrome patient will have a \_\_\_\_\_ on their upper back.

---

**1819.** What ending do anticholinesterases have?

---

**1820.** Where are head lice most commonly found?

---

**1821.** Can a client smoke in the room when the O<sub>2</sub> is turned off?

---

**1822.** What is the age range of formal operation thinking?

---

**1823.** If a child is suspected of having epiglottitis, should you put a tongue depressor in their mouth to look?

---

**1824.** When you are not at the bedside the bed should always be...

---

**1825.** What is the most common complication of malpositioned lenses in the comatose or confused patient?

---

**1826.** Name the three most common complications of ECT?

---

**1827.** Should clients with CHF have a Foley catheter?

---

**1828.** Urine and blood pregnancy tests are enough evidence to be certain of pregnancy. (T/F)

---

**1829.** How do you care for an infant with a Logan Bow?

---

**1830.** Which side will the client be allowed to lie upon post-stapedectomy?

---

**1831.** Why is penicillin administered with Procaine?

With Probenecid?

---

**1832.** Carbonic Anhydrase Inhibitors

---

**1833.** When the body does not receive enough carbs it burns \_\_\_\_\_ and \_\_\_\_\_.

---

**1834.** The 3rd trimester goes from week \_\_\_ to week\_\_\_.

---

**1835.** When does the 4th stage of labor and delivery end?

---

**1836.** Within minutes of birth, what 3 respiratory difficulties occur?

---

**1837.** Coumadin therapy is monitored by what daily test?

---

**1838.** Name the symptoms that pyelonephritis and cystitis have in common?

---

**1839.** The nurse should use (medical/surgical) asepsis during airway suction?

---

**1840.** What age group in Meniere's highest in?

---

**1841.** How long must the client receive this medical treatment?

---

**1842.** Is hemoglobin increased or decreased in this disease?

---

**1843.** With what solution should the client with chemotherapeutic stomatitis rinse pc (after meals)?

---

**1844.** How long can breast milk be frozen?

---

**1845.** What do carbonic anhydrase inhibitors do to the eye?

---

**1846.** What is the major objective in caring for a client after surgical cataract removal?

---

**1847.** Which is more dangerous, oliguria or anuria? Why?

---

**1848.** In Cushings the sodium level is (increased/decreased)

---

**1849.** A disadvantage of PCA pumps is that the client does not ambulate as early due to the machine. (T/F)

---

**1850.** With what size catheter should an adult's airway be suctioned?

---

**1851.** In spinal cord injury never \_\_\_\_ the neck.

---

**1852.** Should the drainage bag ever touch the floor?

---

**1853.** What organism causes acute glomerular nephritis?

---

**1854.** The maximum score an infant can receive on any one of the criteria is

---

**1855.** When using restraints with clients who object, don't forget about \_\_\_\_ - \_\_\_\_.

---

**1856.** What is the best indicator of renal function?

---

**1857.** Do patients experiencing a CVA have a headache?

---

**1858.** How often are vital signs measured in hypovolemic shock?

---

**1859.** Name a new drug with anti-platelet activity.

---

**1860.** The 2nd stage of labor and delivery accomplishes....

---

**1861.** What type of oral/esophageal infections do AIDS patients get?

---

**1862.** What is the #1 symptom of Bell's Palsy?

---

**1863.** On heart rate or cardiac status, a 2 means that the HR is above \_\_\_\_ BPM.

---

**1864.** How is pyelonephritis prevented?

---

**1865.** Aldactone

---

**1866.** What is the #1 therapy in the shock phase?

---

**1867.** Define dehiscense

---

**1868.** What would you do if you noticed a small amount of blood come out in the first few bottles that were infused?

---

**1869.** The burn patient will be on \_\_\_\_ urine output and daily \_\_\_\_\_.  

---

**1870.** In America, the family is the basic unit of society. (T/F)

---

**1871.** What electrolyte is given to people with Meniere's?

---

**1872.** What anatomical fact accounts for the left side of the body being controlled by the right brain?  

---

**1873.** In addition to the nares, where else should the nurse assess for skin irritation when nasal cannulae are in use?  

---

**1874.** Amniotic fluid turns nitrazine paper deep \_\_\_\_\_ (color).  

---

**1875.** (Multi/prima) gravida clients are most likely to get PIH.  

---

**1876.** Can ice packs to the scalp prevent chemotherapy alopecia?

---

**1877.** Can we cure pernicious anemia?

---

**1878.** The infant with cleft lip/palate needs more frequent \_\_\_\_\_.

---

**1879.** What is the unique adjective given to describe the early signs of MG?

---

**1880.** What is the developmental task for middle adulthood?

---

**1881.** What will the activity order be for the post-MI client?

---

**1882.** What precautions are important in the care of the client receiving PD?

---

**1883.** If PROM occurs after viability but before 36 weeks, what is the typical management?

---

**1884.** Spinal cord injuries are more common in males. (T/F)

---

**1885.** Hypothyroidism in an adult.

---

**1886.** What blood pressure is considered to be hypertension?

---

**1887.** The #1 contracture problem in AKA is \_\_\_\_\_ of the \_\_\_\_\_

---

**1888.** What are the three signs of increased intraocular pressure?

---

**1889.** What common household solution is used to remove nits?

---

**1890.** What is the age range for early adulthood?

---

**1891.** What technique is used to remove feces and flatus from the bowel through a colostomy?

---

**1892.** Of all the following, which one(s) increase in hypovolemic shock? Blood pressure, output, heart rate, pH, LOC, pulse pressure, respiratory rate

---

**1893.** Erythromycin

---

**1894.** Baclofen causes (constipation/diarrhea)

---

**1895.** What do you do second for the client experiencing autonomic dysreflexia?

---

**1896.** What symptoms are classic epiglottitis?

---

**1897.** What is the #1 medical treatment of hypovolemic shock

---

**1898.** Why are anticoagulants (heparin only) given to women with CD of pregnancy?

---

**1899.** If a woman forgets to take pill one day, what should she do?

---

**1900.** What do you do if you get blood in the syringe upon aspiration?

---

**1901.** Which types of client should have their toenails trimmed only by an MD?

---

**1902.** Is stapedectomy done under general or local anesthesia?

---

**1903.** If airway obstruction occurs at the accident site and you suspect spinal cord injury, what maneuver is used to open the airway?

---

**1904.** How far above the ear canal should you hold the dropper while administering ear drops?

---

**1905.** What drug treats angina pectoris?

---

**1906.** What is the most common use for anticholinergics in the eye?

---

**1907.** The best way to ensure effectiveness of a rectal suppository is to...

---

**1908.** Which age group engages in stalling tactics before painful procedures most?

---

**1909.** Can impaired skin integrity ever be an appropriate nursing diagnosis when poisoning has occurred?

---

**1910.** Can blood be given immediately after removal from refrigeration?

---

**1911.** 1 inch

---

**1912.** Or Tylenol, Morphine, Demoral, Aspirin which is NEVER given to a sickle-cell patient?

---

**1913.** A rectal suppository is inserted \_\_\_\_ inches in an adult and \_\_\_\_ inches in a child.

---

**1914.** Respiratory Distress Syndrome hardly ever occurs after week \_\_\_\_ of gestation.

---

**1915.** What is the most common sign of neurosyphilis?

---

**1916.** What are the restrictions to be followed when tubes are in a child's ear?

---

**1917.** What should the nurse measure before starting a transfusion?

---

**1918.** For acute exacerbations of MS \_\_\_\_ per IV is often used.

---

1919. When swabbing an incision you would start at the incision or 1 inch away from the incision?

---

1920. Name the three most common uses of PCA techniques.

---

1921. Syphilis is a fatal disease if untreated. (T/F)

---

1922. Of sealed internal, unsealed internal, and external radiation treatment, which is MOST dangerous for the nurse?

---

1923. Is I&O important to record during PD?

---

1924. Shock will \_\_\_\_\_ blood pressure.

---

1925. What three drugs are given post-operatively for surgical cataract removal?

---

1926. Flight of ideas is when the patient changes topics of conversation \_\_\_\_\_.  

---

1927. A 0 on the apgar means the baby

---

1928. Before you give digitalis, what action must you take?  

---

1929. An L/S ratio greater than \_\_\_\_ indicates lung maturity.  

---

1930. Scoliosis MOST commonly affects \_\_\_\_\_.  
(type of clients).  

---

1931. CD ranks \_\_\_\_\_ among the leading cause of maternal death.  

---

1932. If a unit of blood is infused through a central line it must be\_\_\_\_\_.  

---

**1933.** Which soups are not allowed on a gluten free diet?

---

**1934.** What is the only IM given to a burn patient?

---

**1935.** For how long should suction be applied during any one entry of the catheter?

---

**1936.** With which other two spine deformities is scoliosis associated?

---

**1937.** Should fluids be forced or restricted in BPH?

---

**1938.** Are puddings allowed on a gluten-free diet?

---

**1939.** What is the age range for late adulthood?

---

**1940.** In general, males have a higher risk of heart disease than females. (T/F)

---

**1941.** Give three possible causes of hyperemesis gravidarum.

---

**1942.** Pregnancy (decreases/increases) the body's insulin requirements.

---

**1943.** To score the maximum of 2 points on nueromuscular reflex irritability the infant must \_\_\_\_\_.

---

**1944.** After discharge contact with the rape victim is maintained via the \_\_\_\_\_.

---

**1945.** What drug is often used to prevent pregnancy after rape?

---

**1946.** The #1 goal in emergency treatment of spinal cord injury is...

---

**1947.** What is the classic pattern in formal operational thinking?

---

**1948.** ec-

---

**1949.** Surfactant \_\_\_\_ surface tension inside \_\_\_\_\_.  

---

**1950.** Over secretion of adrenal cortex  

---

**1951.** What other disorders resemble rupture of ovarian cysts?  

---

**1952.** What is the #1 cause of hypovolemic shock?  

---

**1953.** Obesity increases the risk of hypertension. (T/F)  

---

**1954.** What is the first sign of appendicitis?  

---

**1955.** What should you do to assess for facial nerve paralysis post-mastoidectomy?  

---

**1956.** MG affects men more than women. (T/F)  

---

**1957.** How should eye ointments be given?  

---

**1958.** Define Meniere's Disease  

---

**1959.** The activity order in early management of CVA is \_\_\_\_\_.  

---

**1960.** Does the heart rate increase or decrease in pulmonary embolus?

---

**1961.** Virulence means....

---

**1962.** Women who have gestational diabetes tend to deliver infants who are (small/large).

---

**1963.** -cele

---

**1964.** What does stenosis mean?

---

**1965.** If an AIDS patient's blood contaminates a counter top, with what do you clean?

---

**1966.** What can PREVENT the attacks of Meniere's?

---

**1967.** What is scanning?

---

**1968.** Name 3 drugs used to treat spasms.

---

**1969.** Which way would you turn the client head to suction  
the right mainstem bronchus? The left mainstem bronchus?

---

**1970.** What does self-disclosure mean?

---

**1971.** What is otitis media?

---

**1972.** What would you tell a client who says what if I get shocked during my EEG?

---

**1973.** What are the 3 subjective complaints of clients with scoliosis?

---

**1974.** Why does the pyloric valve become stenosed in pyloric stenosis?

---

**1975.** What is the advantage of balanced counteraction?

---

**1976.** For what purpose do you use the rule of nines?

---

**1977.** Can too tight bras lead to mastitis?

---

**1978.** -oma

---

**1979.** The dyspnea of pulmonary embolus is accompanied by \_\_\_\_\_.  
\_\_\_\_\_

**1980.** Are eggs allowed on a gluten-free diet?

---

**1981.** A CD4 count of under \_\_\_\_\_ is associated with the onset of AIDS-related symptoms.  
\_\_\_\_\_

**1982.** What is arthodesis?

---

**1983.** What is the typical skin care of pemphigus?

---

**1984.** Which will bring on a MS exacerbation: over-heating or chilling?

---

**1985.** Raynaud's affects males or females mostly?

---

**1986.** What is the danger with PROM?

---

**1987.** Can the thigh EVER be used to obtain a blood pressure?

---

**1988.** For what reason are Montgomery straps used?

---

**1989.** What must you do if you reach across a sterile field?

---

**1990.** Gestational diabetes is associated with what OB history?

---

**1991.** How often should the drainage bag be emptied?

---

**1992.** What is the #1 nursing diagnosis with shingles?

---

**1993.** In the chain of infection, hand washing breaks the mode of \_\_\_\_\_.

---

**1994.** Name the 5 risk groups for AIDS

---

**1995.** Why are diuretics given to women with CD of pregnancy?

---

**1996.** How many minutes should lapse between the nitro pills you take?

---

**1997.** Increasing fluids to over 3000 cc per day is more effective in treating renal calculi ( kidney stones) than any dietary modification. (T/F)

---

**1998.** When taking a child to the ER after accidental poisoning has occurred what must accompany the child to the ER?

---
